

Credit Variance Administration System (CVAS) Release Notes

November 17, 2016

Effective **December 17, 2016**, Fannie Mae will update the Credit Variance Administration System (CVAS) to include system enhancements that will provide the lender an improved online experience and essential compliance and security remediation updates.

- **Single Loan Waiver (SLW) and Project Eligibility Waiver (PEW) Enhancements**
- **Compliance and Security Updates**

Single Loan Waiver (SLW) and Project Eligibility Waiver (PEW) Enhancements

Changes to the Upper Navigation Bar to Include a Link to the Fannie Mae Technology Support Center

A new “Help Center” selection will appear on the upper right navigation bar. Clicking the link will take users to the Fannie Mae [Technology Support Center](#) for technology support.

Display the New Fannie Mae Logo

The new Fannie Mae logo will appear on all pages of CVAS.

Compliance and Security Updates

Enhanced Security Validation for all SLW and PEW Data Fields

CVAS will validate SLW and PEW requests to ensure correct data elements are being used in each field. Error messages will be displayed when invalid values are input into any data field.

Implement Security Restrictions for Uploading Files to Only Allow Specific File Types and Extensions

As a security measure, CVAS will allow only the following file types to be uploaded:

File Types	File Extensions
Adobe PDF	.pdf
Microsoft Office	.csv, .xls, .xlsx, .ppt, .pptx, .doc, .docx
Text file formats	.txt
Image file formats	.gif, .jpg, .jpeg, .png, .tif
Email message file format	.msg
MHTML format	.mht
