

DO/DU Case #6: High-Balance Purchase Loan

Purpose:

Get practice using Desktop Originator[®]/Desktop Underwriter[®] (DO[®]/DU[®]) to evaluate a 90% LTV high-balance mortgage loan application.

By using the data provided in this practice case, you will see how you can enter minimal data in DO/DU to create a loan casefile and submit it for a quick underwriting recommendation. You may also use this practice case as a basis to explore the DO/DU underwriting process with other loan products, property types, and interest rates. All credit and underwriting submissions for this practice case are free of charge, as long as the Test Credit Agency (200) is selected as the credit vendor.

For an actual loan casefile, additional data elements from the 1003 may also be required. You would also need to comply with the underwriting conditions described in the DU Underwriting Findings Report for the loan casefile.

Note: You are encouraged to use the Help Center, which gives you quick and easy online access to a database of help information about DO/DU. You can access this valuable resource by clicking the Help Center link in the upper-left corner of any DO/DU screen.
