Fee Lookup Tool in Fannie Mae Connect

Find fee and draft details faster

The new Fee Lookup Tool improves the way you locate supporting details for fees that Fannie Mae drafts. This self-service tool reduces the need to search multiple reports in Fannie Mae Connect™, so you can locate information and immediately understand the details of your transactions.

The Fee Lookup Tool saves you time by pulling together loan-level data distributed across nine different reports within Fannie Mae Connect. It combines information related to committing and delivery fees in one location to help you gain greater visibility and clarity.

Nine Fannie Mae Connect reports

powering **one tool**

that shows **detailed fee and draft information**

including for **90%**

of committing & delivery transactions.

How it works

1. Search by fee amount or transaction date (with the option to narrow the search by ACH code).
2. Receive better structured fee details to help you understand each fee, including loan and commitment numbers.
3. Export to PDF for record-keeping or Excel for use with internal reporting systems.

Features

- Results combine details from multiple reports in one location.
- Provides loan & commitment level details for at least 90% of all committing and delivery fee-related drafts issued by Fannie Mae.
- Shows an increased number of fee types with structured loan details.

Benefits

- Limits manual comparisons or joining of reports to find fee details.
- Streamlines process so you can attribute costs to the appropriate loans more quickly.
- Provides draft fees with defined loan details.

Integrates results from nine reports

Committing and Delivery Fee Draft Notifications • MBS Guaranty Fee Draft Notifications • MBS P&I Draft Notifications • DLRS Disbursement Notifications • Cash Remittance System Draft Notifications • Premium Recapture Report • LLPA Refund on Repurchases Report • Technology Services Invoices • Post Purchase Adjustment Notification
