

Fannie Mae Developer Portal November 2020 Release

What has changed?

- Creating an application now requires fewer steps and is much faster.
- The dashboard now shows all created applications and their associated credential information. Any API keys previously created will also be listed.

Where are the changes visible?

The application creation process has an updated workflow. The homepage has also been redesigned.

When did this take effect?

The updates went live in production on November 6.

What are the benefits of these updates?

The process to create an application has been streamlined and it will take less time to request access to an API.
