Integration Impact Memo

July 1, 2021

Updated Aug. 20, 2021

On June 29, 2021, Fannie Mae published the updated [DU Specification Version 1.8.2 \(DU Spec\)](#) and [DU Implementation Guide MISMO Version 3.4](#). The updated DU Spec includes changes previously communicated in the [DU MISMO V3.4 Limited Production Period Update Integration Impact Memo](#) and additional changes described below.

Note: This integration impact memo describes new updates in the DU Spec Version 1.8.2. For a complete list of changes, see the [DU Spec - Revision History](#) and [DU Map Update](#).

Aug. 20, 2021: This Integration Impact Memo has been updated to reflect the following:

- **DU Spec Version 1.8.2 - New Data Points and Enumerations:** Updated to indicate that certain new data points and enumerations in the table below may be used in DU for government loans. See the DU Spec for a complete list of data requirements, including conditionality and implementation notes.
- Since publication of this memo, the DU Spec v1.8.2 was updated on August 10, 2021. Visit the [Technology Integration page](#) to review and download the latest update.
- **Release Support:** Added vendor obligations to update integrated system(s) within 120 days of notification of Specification changes.

DU Spec Version 1.8.2 - New Data Points and Enumerations

Updated Aug. 20, 2021: Since publication of this memo, the updates described below were communicated for DU Version 11.0 in the [DU V. 11.0 September Update](#), and for DU for government loans in the [Sept. 2021 Release](#).

In future update, DU will implement the changes described below. These new data elements may be used to issue DU Underwriting Findings Messages and in any calculations in DU and DU for government loans, where applicable.

More information will be provided once a DU release date is confirmed, including Release Notes and integration impact.

How will this affect my integrated system?

The updates described below will be available in a future update of DU Version 11.0 and DU for government loans. No action is required until further notice.

Any changes to these data elements implemented in your system(s) and submitted to DU prior to the update will impact loan casefile submissions.
