

Loan Delivery Information for Qualified Mortgage (QM) Edits

Updated August 7, 2023

As a reminder, Fannie Mae does not use our systems to enforce compliance with industry regulations and applicable law. Instead, we rely on our lenders' representations and warranties with regard to compliance with applicable law as outlined in the Selling Guide. Lenders should check with their legal counsel on how to comply with the Revised QM Rule.

[Lender Letter LL-2021-11](#) reminded lenders of the current requirement to deliver a number of data elements related to Qualified Mortgage (QM) in the Uniform Closing Dataset (UCD) file (submitted to us at or before loan delivery), including the method by which the creditor satisfied the Ability to Repay (ATR) requirements or reason for exemption, the Annual Percentage Rate (APR) and Average Prime Offer Rate (APOR) percentages, and points and fees.

Updated: The Revised Qualified Mortgage (QM) Rule Annual Percentage Rate (APR) and Average Prime Offer Rate (APOR) threshold added an APR data requirement for adjustable-rate QM loans that could have an interest rate change within the first five years after the date on which the first periodic payment is due. The lender must use the maximum interest rate that could apply during the first five years after the first payment is due when calculating the qualifying rate. As of May 1, 2023, UCD requires the new data point 'gse:QualifiedMortgageShortResetARM_APRPercent', for all Adjustable-Rate Mortgages (ARMs) that could have an interest rate change within the first five years. The lender must use the new UCD data point when calculating the APR-APOR spread for all ARMs that meet the definition above.

We utilize the UCD and Uniform Loan Delivery Dataset (ULDD) (aligned with Freddie Mac), as provided, to perform the checks at time of delivery/purchase. See the Business Rule section below for details on edits.

Loan eligibility APR-APOR thresholds and points and fees requirements per the Lender Letter (allowable loan amounts and values may change each year – review the Consumer Finance Protection Bureau ([CFPB](#)) site for the latest information) are listed below:

2023 Loan Amounts and Value Thresholds - Based on Note Date

| Regulation Z Section | Eligibility Criteria | Current Selling Guide Requirements | | | | | | | | | | | | |

Business Rules for Loan Delivery and EarlyCheck

The edits validate that the data related to the APR-APOR thresholds and points and fees provided in UCD meets the requirements outlined in the Lender Letter. When lenders are researching loans impacted by these new edits, **we recommend that you contact your closing team who submitted the UCD data or the correspondent that submitted the UCD data for assistance in validating that the data in the UCD submission is correct.**

- If the data points are incorrect in UCD
 - Update the data in your system that creates the UCD XML file and re-submit the UCD XML file in the UCD Collection Solution
 - Re-run the edits in the Loan Delivery Application. The fatal edit(s) should be resolved
- If all the data points are correct in UCD
 - If you continue receiving the fatal edits in Loan Delivery, the loan **is not eligible** for delivery

When validating the UCD data for the edits, verify the following applicable data points are correct in the UCD XML file:

- | | | |
|-------------------------------------|------------------------------|--|
| • AbilityToRepayExemptionReasonType | • CurrentRateSetDate | • RegulationZTotalPointsAndFeesAmount |
| • AbilityToRepayMethodType | • LienPriorityType | • gse:QualifiedMortgageShortResetARM_APRPercent' |
| • AmortizationType | • LoanPurposeType | |
| • APRPercent | • MortgageType | |
| • AveragePrimeOfferRatePercent | • RegulationZTotalLoanAmount | |

NOTE: *Additional Data elements to review when validating UCD data*

- AutomatedUnderwritingSystemType
- AutomatedUnderwritingSystemTypeOtherDescription
- LoanManualUnderwritingIndicator

NOTE: *There is the potential that this edit could also fire in EarlyCheck when submitting a MISMO 3.0 ULDD file format, the steps to resolve the issue are the same as above.*

Exempt Loans

If a loan is considered Exempt from Regulation Z's Ability to Repay (ATR) requirements, the file should be submitted in UCD with the following data points if the loan is classified as Exempt:

- AbilityToRepayMethodType=Exempt
- AbilityToRepayExemptionReasonType=PropertyUsage or LoanProgram

NOTE: *Use PropertyUsage for investment properties, use LoanProgram for Housing Finance Agency (HFA).*

NOTE: *As of March 1, 2022, single-closing construction-to-permanent loans must meet QM requirements and may require an update to the UCD submission if a modification impacts QM data points (i.e., APR, Average Prime Offer Rate, Note Amount, etc.).*

APR-APOR Spread Edits

The following edits are in Loan Delivery and EarlyCheck.

The Loan Delivery edits will calculate the spread based on the APR and APOR values submitted in the UCD casefile. Providing a value of zero for the APOR datapoint in UCD may result in the Loan Delivery edit being issued (if the calculated spread (APR-APOR) is above the allowable threshold). The applicable APOR value should be provided in the UCD file and resubmitted in UCD (contact your closing team or correspondent that submitted the UCD data for assistance if needed). If you need further assistance contact the [UCD Mailbox](#).

NOTE: For short term ARM loans, lenders must calculate the APR using the maximum interest rate that could apply during the first five years after the first payment is due and provide that value in the new UCD field `gse:QualifiedMortgageShortResetARM_APRPercent`. The `gse:QualifiedMortgageShortResetARM_APRPercent` minus the APOR is the calculation that will be used to calculate the spread value for all short term ARM loans submitted on or after May 1, 2023 in UCD.

| Edit No. | Loan Delivery Edit Feedback Message | EarlyCheck | Corresponding UCD Edit |
|---|---|---------------------|---|
| C52 for Fixed Rate loans, C96 for ARM loans, *C92 and *C99 for short term ARMs | UCD indicates this loan is exempt from Qualified Mortgage requirements. APR spread greater than 6.5% is not permitted for Conventional, First Lien loans exempt from QM requirements. Validate the data in UCD and LD to ensure accuracy. Refer to the Loan Delivery Qualified Mortgage (QM) Edit job aid for further assistance. | MISMO 3.0 file only | There are no 1 to 1 edits that correspond to this edit in UCD. The underlying datapoints are being used by Loan Delivery and are enforced as part of the Phase 1 UCD Critical Edit Mandates. Lenders will need to Verify the data in the UCD data submission for accuracy |
| 2021/2022 C53/C74 2023 C85 for Fixed Rate C94 for ARM loans *C97 for short term ARMs submitted to UCD prior to 5/1/2023 | UCD indicates this loan must meet Qualified Mortgage requirements. The APR spread is greater than the allowed APR spread for the Original Loan Amount provided for this Conventional, First Lien Qualified Mortgage. Validate the APR and APOR in UCD to ensure accuracy. Refer to the Loan Delivery Qualified Mortgage (QM) Edit job aid for further assistance. | MISMO 3.0 file only | |
| 2021/2022 C54/C75 2023 C86 for Fixed Rate C95 for ARM loans *C98 for short term ARMs submitted to UCD prior to 5/1/2023 | UCD indicates this loan must meet Qualified Mortgage requirements. The APR spread is greater than the allowed APR spread for the Original Loan Amount provided for this Conventional, First Lien, Manufactured Home Qualified Mortgage. Validate the APR and APOR in UCD to ensure accuracy. Refer to the Loan Delivery Qualified Mortgage (QM) Edit job aid for further assistance. | MISMO 3.0 file only | |
| *C90 for short term ARMs with UCD submissions on or after 5/1/23 | UCD indicates this loan must meet Qualified Mortgage requirements. The APR spread of (UCD Calculated APR spread) is greater than the allowed APR spread for the Original Loan Amount provided for this Conventional, First Lien Qualified Mortgage with a Note Date in 2023. Validate the Short Reset ARM APR of (Loan Qualified Mortgage Short Reset ARM APR Percent) and the APOR of (UCD Average Prime Offer Rate Percent) in UCD to ensure accuracy. | *C91 for short term ARMs with UCD submissions | UCD indicates this loan must meet Qualified Mortgage requirements. The APR spread of (UCD Calculated APR spread) is greater than the allowed APR spread for the Original Loan Amount provided for this Conventional, First Lien, Manufactured | MISMO 3.0 file only | |

| Edit No. | Loan Delivery Edit Feedback Message | EarlyCheck | Corresponding UCD Edit |
|--------------------|---|---------------------|---|
| on or after 5/1/23 | Home Qualified Mortgage with a Note Date in 2023. Validate the Short Reset ARM APR of (Loan Qualified Mortgage Short Reset ARM APR Percent) and the APOR of (UCD Average Prime Offer Rate Percent) in UCD to ensure accuracy. Refer to the Loan Delivery Qualified Mortgage (QM) Edits job aid for further assistance. | | |
| *C93 | Loan Qualified Mortgage Short Reset ARM APR Percent is required at the time of closing for UCD short reset ARM mortgages with a first rate change within the first five years. Please validate the value on the closing disclosure and re-run eligibility. | MISMO 3.0 file only | UCD edit 3671: For ARM loans with a first interest rate change within the first 5 years after the date on which the first regular periodic payment is due, the Qualified Mortgage Short Reset ARM APR Percent must be provided. |

*Edits will be implemented as warning severity in Loan Delivery on August 4, 2023, and transition to fatal severity at a later date.

NOTE: The APR-APOR calculations in the Loan Delivery edits are based off the APR and APOR data provided in the UCD submission and the original loan amount in Loan Delivery. The Loan Delivery data point HMDA Rate Spread (SID 208) is not used.

Total Points and Fees Edits

The following edits were introduced in Loan Delivery and EarlyCheck on 10/1/2021 and 10/25/2021 as Fatal severity.

NOTE: The edits use the original loan amount provided in Loan Delivery for the original loan amount range. The Regulation Z Total Loan Amount is used from UCD in the calculation for the max allowable Points and Fees amount. The Regulation Z Total Loan Amount is calculated by the Original Loan Amount/Note Amount minus the finance charges and therefore, it should not exceed the Original Loan Amount/Note Amount.

| Edit No. | Loan Delivery Edit Feedback Message | EarlyCheck | Corresponding UCD Edit |
|-------------|--|---------------------|---|
| C47 | UCD indicates this loan is exempt from Qualified Mortgage requirements. A Calculated Regulation Z Total Points and Fees Amount of greater than 5% of the Regulation Z Total Loan Amount is not permitted for loans exempt from QM requirements. Validate the data in UCD and LD to ensure accuracy. Refer to the Loan Delivery Qualified Mortgage (QM) Edits job aid for further assistance. | MISMO 3.0 file only | There are no 1 to 1 edits that correspond to this edit in UCD. The underlying datapoints are being used by Loan Delivery and are enforced as part of the Phase 1 UCD Critical Edit Mandates. Edit Updates for Uniform Closing Dataset (UCD) Closing Solution

The following UCD edits transitioned to fatal severity on 7/31/2021 in the UCD Closing Solution application, as part of the UCD Phase 1 critical edits. The edits enforce the requirement to deliver a number of data elements related to QM in the UCD file, including the method by which the creditor satisfied the ATR requirements or reason for exemption, the APR and APOR percentages, and points and fees. These QM related fields are now used in the Loan Delivery business rules.

We recommend Fannie Mae sellers contact their closing team who submitted the UCD data or the correspondent that submitted the UCD data for assistance in validating the data in UCD submission is correct.

| UCD Edit ID | UCD Edit Feedback Message | Associated Data Point(s) | MISMO definition | Resolution |
|-------------|--|------------------------------|---|--|
| 3015 | Annual Percentage Rate is required and must be greater than 0.0%. Data must be numeric up to 3 digits, with up to 4 decimal places. | APRPercent | The annual percentage rate for the loan based on the accepted industry standard defined by Regulation Z (Section 12 C.F.R. 1026.18(e)) used for Qualified Mortgages and general disclosure purposes. | Must Exist |
| 3026 | Ability to Repay Method Type is required and must be a valid enumeration. | AbilityToRepayMethodType | Specifies the method by which the creditor satisfied Regulation Z Ability-to-Repay requirements. | Must exist and be one of the following Enumerations <ul style="list-style-type: none"> "General" - A loan made subject to Regulation Z general Ability-to-Repay standards. "Exempt" - A loan that is exempt from Regulation Z Ability-to-Repay requirements. |
| 3027 | Average Prime Offer Rate Percent is required and must be greater than 0.0%. Data must be numeric up to 3 digits, with up to 4 decimal places. | AveragePrimeOfferRatePercent | An annual percentage rate that is derived from average interest rates, points, and other loan pricing terms currently offered to consumers by a representative sample of creditors for mortgage transactions that have low-risk pricing characteristics. The Federal Reserve Board publishes average prime offer rates for a broad range of types of transactions in a table updated at least weekly. This rate is used in determining Higher Priced Mortgage Loans (HPML). | Must Exist |
| 3029 | Regulation Z Total Loan Amount is required and must be greater than 0.0%. Data must be numeric up to 9 digits, with up to 2 decimal places. | RegulationZTotalLoanAmount | The total loan amount, expressed in dollars, calculated in accordance with Regulation Z, Truth in Lending. This amount is used in calculations for both Qualified Mortgage and HOEPA. | Must Exist |

| UCD Edit ID | UCD Edit Feedback Message | Associated Data Point(s) | MISMO definition | Resolution |
|-------------|--|--|---|--|
| 3030 | Current Rate Set Date is required. Provide the data in the YYYY-MM-DD format. | CurrentRateSetDate | Date on which the interest rate for the loan was set by the lender for the final time before closing. | Must exist |
| 3122 | If Ability to Repay Method Type equals Exempt, then Ability to Repay Exemption Reason Type is required and must be a valid enumeration. | AbilityToRepayExemptionReasonType AbilityToRepayMethodType | Specifies the reason that transaction is exempt from Regulation Z Ability-To-Repay requirements. | AbilityToRepayMethodType = "Exempt" then provide one of the following values <ul style="list-style-type: none"> "LoanProgram" - Indicates that transaction is exempt from Regulation Z ability-to-repay requirements because the loan program is exempt from requirements "PropertyUsage" - Indicates that transaction is exempt from Regulation Z ability-to-repay requirements because the occupancy type for the property is exempt from requirements |
| 3123 | If Regulation Z Excluded Bona Fide Discount Points indicator is true, then Loan Price Quote Interest Rate Percent is required and must be greater than 0.0%. Data must be numeric up to 3 digits, with up to 4 decimal places. | LoanPriceQuoteInterestRatePercent RegulationZExcludedBonaFideDiscountPointsIndicator | The mortgage loan interest rate for which the price quote is calculated. | Must Exist |
| 3125 | If Loan Discount Points is greater than zero, then Regulation Z Excluded Bona Fide Discount Points Indicator is required. Provide the data as true or false. | FeeType FeeTotalPercent RegulationZExcludedBonaFideDiscountPointsIndicator | When true, indicates that excluded bona fide discount points were charged for this loan. | If Discount point exist and are greater than zero, provide a value of TRUE or FALSE for Regulation Z Excluded Bona Fide Discount Points Indicator |
| 3126 | If Regulation Z Excluded Bona Fide Discount Points Indicator is true, then Regulation Z Excluded Bona Fide Discount Points Percent is required and must be greater than 0. Data must be numeric up to 3 digits with up to 4 decimal places. | RegulationZExcludedBonaFideDiscountPointsPercent RegulationZExcludedBonaFideDiscountPointsIndicator | The bona fide discount points, expressed as a percent, that are excluded from points and fees calculated in accordance with Regulation Z, Truth in Lending. | Must Exist |

| UCD Edit ID | UCD Edit Feedback Message | Associated Data Point(s) | MISMO definition | Resolution |
|-------------|---|---|--|------------|
| 3128 | Regulation Z Total Points and Fees Amount is required. Enter the total points and fees excluding bona fide discount points. Data should be numeric up to 9 digits, with up to 2 decimal places and cannot be negative. | RegulationZTotalPointsAndFeesAmount RegulationZExcludedBonaFideDiscountPointsIndicator | The total amount of points and fees, expressed in dollars, calculated in accordance with Regulation Z, Truth in Lending. This amount is used in calculations for both Qualified Mortgage and HOEPA purposes. | Must Exist |
| 3311 | Regulation Z Total Affiliate Fees Amount is required and must be greater than or equal to 0. Data must be numeric up to 9 digits, with up to 2 decimal places. | RegulationZTotalAffiliateFeesAmount | The total amount of fees, expressed in dollars, paid to an affiliate(s) of the creditor. | Must Exist |

The following UCD edits transitioned to fatal severity on 5/1/2023 in the UCD Closing Solution application, as part of the UCD Phase 3a critical edits. The edits enforce the requirement to deliver the short term ARM data elements related to QM.

| UCD Edit ID | UCD Edit Feedback Message | Associated Data Point(s) | MISMO definition | Resolution |
|-------------|--|---|---|-------------------------|
| 3670 | When Amortization Type is equal to "Adjustable Rate" the First Rate Change Months Count must be provided. | FirstRateChangeMonthsCount | The number of months after origination in which the first interest rate adjustment occurs, if the interest rate on the subject loan can change. | Must Exist |
| 3671 | For ARM loans with a first interest rate change within the first 5 years, the Qualified Mortgage Short Reset ARM APR Percent must be provided. | gse:QualifiedMortgageShortResetARM_APRPercent | The annual percentage rate for the loan based on the accepted industry standard defined by Regulation Z (Section 12 C.F.R. § 1026.43(e)(2)(iv)) used for QMs that have an interest rate change within the first five years after the date on which the first regular periodic payment is due (e.g., 3/6 and 5/6 SOFR-indexed ARMs). | Must Exist |
| 3672 | For ARM loans with a first interest rate change within the first 5 years, the Qualified Mortgage Short Reset ARM APR Percent must be greater than 0%. | gse:QualifiedMortgageShortResetARM_APRPercent | The annual percentage rate for the loan based on the accepted industry standard defined by Regulation Z (Section 12 C.F.R. § 1026.43(e)(2)(iv)) used for QMs that have an interest rate change within the first five years after the date on which the first regular periodic payment is due | Must be greater than 0. |
