## Introduction

This document provides an overview of the Property 360™ application for Expense Reimbursement and outlines navigation steps for submitting and managing expense reimbursement claims.

To get started with submitting claims in Property 360™, review the information outlined below and watch the [Property 360 Expense Reimbursement eLearning](#).

## Property 360 Best Practices

Consider the following best practices when using Property 360:

- Use the latest version of Chrome.
- “Validate and Export” the bulk claim file often to prevent errors in submissions.
- Complete the Property 360 User Survey (sent via email after the initial claim submission).

## System and Access Requirements

To utilize Property 360, technology managers must complete the following the steps:

1. Follow the instructions listed in [Set Up an Available Application](#) to set up the Property 360 application for the company.

**Note:** Select **Property 360** from the Available Applications tab.

2. Follow the instructions listed in [Grant a User Group Access to an Application](#) to assign individuals to the applicable user group.

**Note:** Select the applicable user group:

- To submit claims:
  - **PROP360-PROD-EXPENSES-BULKUPLOAD**
  - **PROP360\_PROD\_EXPENSES\_SUBMISSION**
- Read-only access: **PROP360-PROD EXPENSES-READONLY**

## System Navigation

### Log in to Property 360

1. Access [Property 360](#).
2. Enter **Username** and **Password** then click the **Sign On** button.

Sign On

USERNAME  
Username Here  
\* REQUIRED

PASSWORD  
\*\*\*\*\*  
\* REQUIRED

Sign On

Need help with unlocking your user ID or resetting your password?

## Forgot My Password/Username

Click Need help with unlocking your user ID or resetting your password? if login issues arise.

## Log Off Property 360

A Session Timeout warning appears after 30 minutes of inactivity with options to **Keep Active** or **Logout**.

## Property 360 Homepage

After successful log in, the homepage displays. The view is dynamic based on user role access. All Property 360 portals are accessible from the ribbon across the top of the homepage.

1. Click **Claims**.

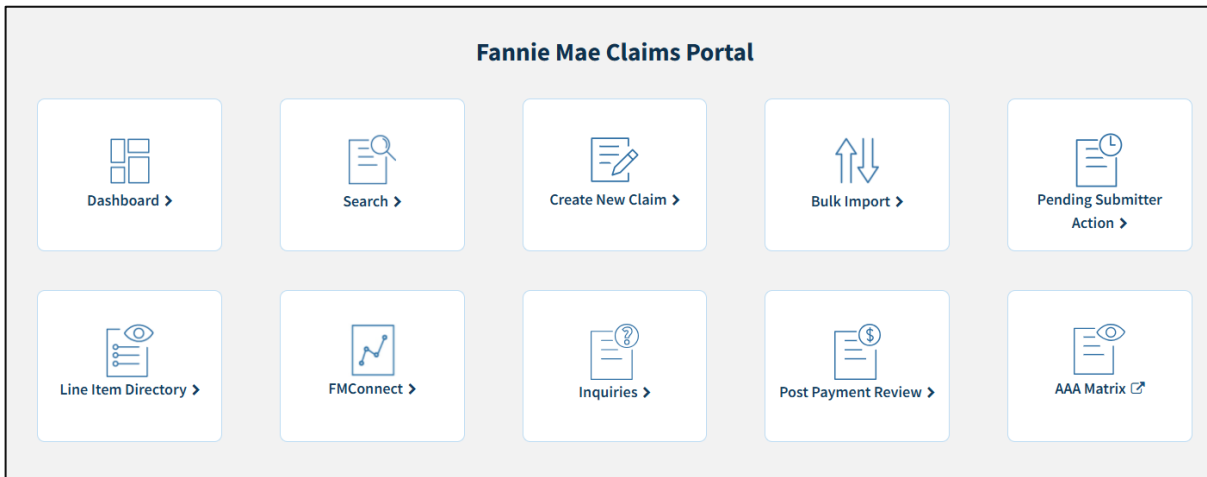

**NOTE:** The search box in the middle of the homepage provides property data collected for use within the REOgram Notification module of Property 360 and is only accessible for REOgram users.

# Claims Portal

The Fannie Mae Claims Portal menu provides the following action options. Click on the hyperlink(s) to navigate to the corresponding subsection.

- [Metrics Dashboard](#) – Displays claims metrics and expense analysis.
- [Search](#) – Find previously submitted claims.
- [Create New Claim](#) – Submit single claims.
- [Bulk Import](#) – Upload a file with data to submit multiple claims for one or multiple loans.
- [Pending Submitter Action \(PSA\)](#) – Retrieve request from internal processors for additional information or documentation.
- [Line Item Directory](#) – Houses all expense reimbursement types, subtypes, and line item descriptions.
- [FMConnect](#) – Direct access to the Expense Reimbursement Reconciliation Report.
- [Inquiries](#) – Direct access to the Inquiry Response Tool (IRT).
- [Post Payment Review](#) – Direct access to the Post Payment Review Documentation Request
- [AAA Matrix](#) – Direct access to the Attorney Authorization Approval (AAA) Matrix.

## Metrics Dashboard

Click the Dashboard tile on the Fannie Mae Claims Portal main page to open the Claims Dashboard.

Users can access this claims dashboard to view claims metrics and expense analysis. Click **Claims Summary** to easily identify and review claim decisions, approval rates, and the most common denied or curtailed expense types.

The screenshot displays the 'Claims Summary' dashboard with the following components:

- Filters:**
  - Time Period:  Prior Month,  Year To Date,  Last 12 Months
  - Parent Entity Name: [Dropdown]
  - SSID: [Dropdown]
  - Claim Type: [Dropdown with options: 571 Claim, CL TAX, EQUATNIM Vendors]
  - Buttons: Reset, Submit
- Overview Table:**

STATUS	CLAIM COUNT	REQUESTED AMOUNT	PAID AMOUNT
Denied	6	\$1,455.00	\$0.00
Approved	98	\$691,726.54	\$684,572.12
Outstanding	11	\$464,276.08	\$0.00
<b>Grand Total</b>	<b>115</b>	<b>\$1,157,457.62</b>	<b>\$684,572.12</b>
- Top Denied/Curtailed Expense Types Table:**

EXPENSE TYPES	COUNT	DENIED/CURTAILED AMOUNT
Valuation Costs	3	\$180,026.00
Taxes	5	\$5,478.69
Attorney Fees	13	\$2,270.00
Insurance	2	\$997.73
Recording Costs	1	\$200.00
Title Costs	1	\$35.00
<b>Grand Total</b>	<b>25</b>	<b>\$189,007.42</b>
- Summary Metrics:**
  - Approval Rate: **59.14%**
  - Auto-Approval Rate: **60.87%**
  - PSA Outstanding: **8**

Click **Expense Analysis** to view the most common edits that cause a claim denial.

Pre-payment Audit. Review expense against documentation.	1	\$30.00
<b>Grand Total</b>	<b>6</b>	<b>\$1,843.59</b>

## Search

Click the Search button on the Fannie Mae Claims Portal main page to open the global search function.

Users can search by selecting one or more available data fields to filter criteria for particular claim populations. Many of the data fields have drop-down menus with options available to assist in search selections.

Within the Search tab, users can select filtering criteria and click **Search** to obtain search results. Use **Reset** to clear all Search fields. Users can also navigate to the Reports tab to download results as an .XLSX and filter for specific search results.

**NOTE:** There is also a wildcard search option in the form of a Partial Match checkbox. At least four characters must be entered to enable this checkbox, and if checked, the search will return any claims with a servicer loan number that includes those characters, instead of only exact matches.

**Search** Reports

**Search**

Servicer Loan Number: [Text Field]

Audit Flag: Yes, No [Dropdown]

Search Reset

The screenshot shows the 'Claims Search Results' page in the Property 360 system. At the top, there are navigation links for 'Home', 'Claims', and 'FAQs'. Below the navigation is a search bar and a 'Download XLSX' button, which is highlighted with a red box. The main content area displays a table with the following columns: CLAIM NUMBER, CLAIM ID, CLAIM TYPE, FANNIE MAE LOAN NUMBER, SERVICER LOAN NUMBER, SUBMITTER, CLAIM AGE, CLAIM STATUS, SUBMITTED DATE, REQUESTED AMOUNT, REIMBURSEMENT AMOUNT, and CHECK DATE.

The screenshot shows an Excel spreadsheet with the following columns: Claim Number, Claim ID, Fannie Mae Loan Number, Claim Type, Claim Status, Status Date, Processor Name, Decision Date, Payee Name, Payee ID, Submitter Entity, Servicer POC, Servicer loan number, Requested Amount, Reimbursement Amount, Check #, Check Date, and Line Item Count. The 'Audit Flag' column is highlighted with a red box.

## Target Review

Fannie Mae has implemented the following edit message: *Target Review - Supporting Documentation Required*. This edit requires servicers to attach supporting documentation to validate the expense. Expenses initially submitted without documentation will now appear in a Pending Submitter Action (PSA) status. If an attachment cannot be provided, a comment is required to continue processing the claim. If documentation to substantiate the expense is not provided, the expense could be denied.

Servicers can use the new Audit Flag search field to find claims and line items associated with this edit. Additionally, there is a Y/N (Yes/No) indicator included in the Basic and Reports search exports as well as in the Audit Flag column.

The screenshot shows the 'Search' interface in the Property 360 system. It includes search fields for Servicer Loan Number, Claim Number, Fannie Mae Loan Number, and Claim ID. There are also date pickers for 'From' and 'To' dates, and a dropdown menu for 'Claim Status'. The 'Audit Flag' dropdown menu is highlighted with a red box, showing options for 'Yes' and 'No'. There are 'Search' and 'Reset' buttons at the bottom right.

## Reports

Users can build and generate specific reports utilizing the **Reports** tab.

Search

Search **Reports**

The process will start a search query that will generate a report.

Servicer Loan Number   
 Claim Number   
 Fannie Mae Loan Number

Search by: Submitted Date, Decision Date, Check Date, Created Date  
 From: mm/dd/yyyy  To: mm/dd/yyyy   
 Parent Entity Name: ALLY FINANCIAL INC., BANKROWIA, CITIGROUP INC.

Claim Status: Accepted, Acknowledged, Approved  
 Claim Type: 571 Claim, HAMP, FNMA Mod  
 HECM Indicator: Yes, No

Expense Type: Attorney Fees, Court Costs, Deductible, Default Services Fees  
 Expense Subtype: Ad-Hoc Payments, Address Posting, Aerial Imagery Report, Appraisal Dist, Attorney Initiated Property Inspection  
 Submitter: 1ST 2ND MORTGAGE COMPANY OF NEW JERSEY, 1ST 2ND MORTGAGE COMPANY OF NEW JERSEY, 1ST MIDAMERICA CREDIT UNION, 1ST SECURITY BANK OF WASHINGTON, 1ST SOURCE BANK

Claim ID   
 Transaction ID   
 Check/ACH Number

Audit Flag: Yes, No

Each time you click **Generate Report** a new report will begin processing.

**NOTE:** Click **Refresh** if download takes longer than 2 minutes.

Recent Reports

Downloaded files will be automatically deleted after 7 days from the repository.

## Create New Claim

### Single Claims Process Steps

The steps below outline the process to create a single claim.

- From the Claims homepage, click on **Create New Claim**.

- Enter the Fannie Mae loan number in the **Fannie Mae Loan Number** field. Select appropriate **Vendor/Servicer ID** from the dropdown.

3. Click **Search**.

**Fannie Mae Loan Search**

**Add** Cancel

9. Click **Validate** on the ribbon at the top of the page when all line items have been entered. This validation process ensures that all data has been entered correctly and allows the user to make corrections prior to submission.

The screenshot shows the 'Claim Details' form in the Property 360 system. The ribbon at the top contains buttons for 'Submit', 'Validate', 'Void', 'Print PDF', and 'Download XLSX'. The 'Validate' button is highlighted with a red box, and a red arrow points to it. The form fields include: Fannie Mae Loan Number, Servicer Loan Number, Seller Servicer ID, Claim Status (Hold), Claim Number, Claim Type (571 Claim), Request Date/Date Identified (11/2/2023), First Time Vacancy Date, Submitter, Submitter POC (Automation User), Copied From, and Last Validation Date (11/21/2023 09:23 AM).

10. Make any required corrections and re-validate until no additional errors are identified. The file has been confirmed when the **Validation Successful** popup message displays.

The screenshot shows the 'Claim Details' form with a green 'Validation Successful' popup message in the top right corner. The ribbon buttons are the same as in the previous screenshot. The form fields are identical, but the 'Claim Status' is now 'Hold'.

11. After a successful validation, click **Submit** to complete submission for Fannie Mae review.

The screenshot shows the 'Claim Details' form with a green 'Validation Successful' popup message. The 'Submit' button on the ribbon is highlighted with a red box, and a red arrow points to it. The form fields are the same as in the previous screenshots.

12. Claims that can be automatically approved, update to an **Approved** status. Claims that cannot be automatically approved update to a **Submitted** status for manual review.

The screenshot shows the 'Claim Details' form with the 'Claim Status' set to 'Approved'. The ribbon buttons are 'Print PDF' and 'Download XLSX'. The form fields include: Fannie Mae Claim ID, Claim Number, Claim Type (571 Claim), Claim Status (Approved), Last Validation (12/15/2020 12:00 AM), Request Date (12/14/2021), Source, Processor Name (Auto Approver), Data as of (12/15/2020), Submission Count (1), Number of Edits (0/4), and Claim Denial/Curtail Reason.

**NOTE:** Claims requiring a manual review can be found by using the Search button found on the Fannie Mae Claims Portal page. Claims that have been manually reviewed/decided on can be found by using the **Search** button on the Fannie Mae Claims Portal Home page.

## Void A Claim

Users can void a claim when the claim is in a Hold, Pending Submitter Action, or Submitted status. This prevents a claim from being counted as a duplicate by the system. Once the claim has been voided, the servicer will be able to utilize that same claim number for a new claim.

**Note:** Submitters can still copy data from a voided claim.

## Bulk Import

The Bulk Import feature allows a user to upload a file with data to simultaneously submit multiple claims for one or multiple loans.

The Bulk Import process includes several stages, outlined below, coordinated to assist in submission success. Review the applicable sections for information required for each stage.

1. [Download](#) newest bulk upload template.
2. [Complete](#) the XMLS template detailing each expense on each claim for each loan.
3. [Validate](#) and upload the file for claim submission.
4. [Track](#) the upload's progress for file status and claim decisioning information.

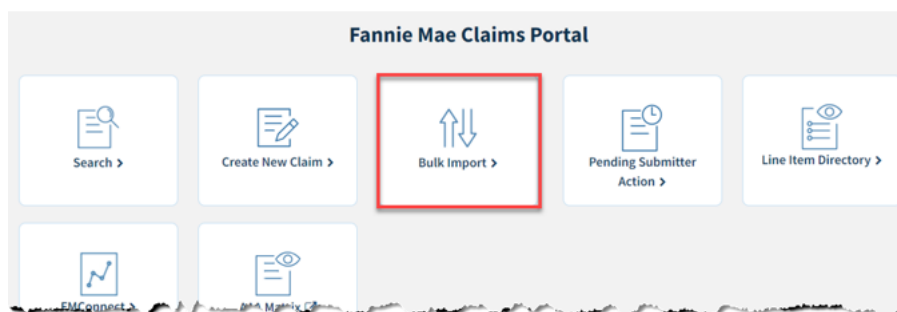

## Bulk Upload Procedure Steps

The steps below outline the process to submit multiple expense claims in bulk:

### Download the Bulk Upload Template

1. Open the [portal](#).
2. Click on **Claims**.
3. Click **Bulk Import**.

4. Download the latest Excel document containing all the fields needed for bulk submission of claims.

**NOTE:** The last updated date is provided for convenience.

The Excel document contains all fields needed for the bulk submission of claims. The three tabs on the template and their functions are listed below:

Template Pages	Function
<b>Claims</b>	Contains claims data and where claim information is populated.
<b>Error</b>	Shows any errors found after validating the data.
<b>Configurations</b>	Shows the requirements and what is displayed for each line item.

### Complete the Template

Gather claim information and begin populating the template. Each file can have multiple claims and each claim can have multiple line items, however, the maximum number of line items per claim cannot exceed 100. Ensure line items for the same claims have the same header information.

Brief descriptions for each of the columns and what information should be populated in each one can be found in the [Glossary of Terms](#) found at the end of this document.

**NOTE:** The required columns are marked with a red triangle in the column headers of the template.

Claim Number	Action	Payee/ Seller	Service ID	Claim Type	Fannie Mae Loan Number	Servicer Loan Number	Fir
123	New	121		571 Claim	123	987	
555	New	111		HECM	666	321	

### Validate and Upload

1. Click the **Validate and Export** button in the gray box at the top of the template.

- If the file is error free, it will generate a zip file containing the template .XLS file and .JSON file. A pop-up box will appear asking to save the zip file to a designated location. Once the zip file is saved, do not edit the .JSON or the .XLS file. If changes are needed, update the template file and re-generate the zip file by re-validating and exporting to JSON.

- If the file has errors, it will generate a warning box in the middle of the screen notifying the user the expense data entered has errors. Click **OK**.

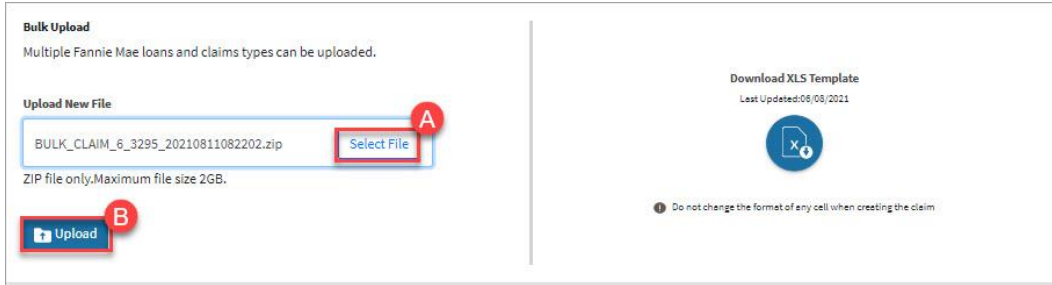

- Click on the **Error** tab in the lower left-hand corner of the screen to view a list of the items needing to be updated. The **Claim Number** and **Transaction ID** column will identify the line items with data issues. The **Status Column** will list the actions needed to fix the issues. Update the failed items and re-validate.

Line Item	Claim Number	Transaction ID	Action	Payee/ Seller	Service ID	Claim Type	Fannie Mae Loan Number	Servicer Loan Number	Status
29	555	3	New	111		HECM	666		Success
30	579	7		101					Error
31	602	1		909					Error
32	626	5	New	192		HAMP			Success
33	669	1		161		HECM			Error
34	692	5		606					Error
35	716	9		404					Error
36	987	5		101					Error

- After re-validating, if all failed items are fixed, the Windows **Save As** box will appear and ask for a location to save the template in a zip file and name it (see **Step 2B** below).
  - When the zip file is created, drag, or add the files listed in the **Attachment Names** column to the zip file. The file names must match the names listed in the spreadsheet exactly or it will trigger an error. The zip file cannot be larger than 2GB.
2. Upload the saved zip file by clicking **Select File**. Locate and select the saved zip file and click **Upload**.
    - A. Select the file to be attached. (Make sure the document name and the file name on the spreadsheet match exactly).
    - B. Click **Upload**.

### Track upload progress

After the upload is complete, the claim's zip file will be listed in the Recently Submitted list. Click the **refresh** button to show the latest status of the files. Clicking the **View All** button previews all bulk files submitted.

The four different file statuses are defined below:

Status	Definition
<b>Staging</b>	The file has been received and awaiting validation confirmation by the system.
<b>Processing</b>	A temporary status identifying a file running validation confirmation by the system.
<b>Processed</b>	All claims in the file have been created and/or rejected due to data issues. Details to the decisioning will be available at the individual claim level.
<b>Error</b>	The file did not load into the system due to system issues.

**NOTE:** Only after the file is processed will the date processed appear.

After claims are uploaded, there may be claims that were not auto-paid due to edits that generated. These claims can be resolved in Property 360 . The claims that are not eligible for auto-payment in Property 360 are visible by clicking on **File Name** and referencing the **Claim Status**.

The screenshot shows the 'Submitted Files' interface. The top table lists files with columns: FILE NAME, FILE ID, FILE STATUS, TOTAL SUBMITTED, APPROVED, REJECTED, MANUAL SUBMISSION, SUBMITTED DATE, PROCESSED DATE, and SUBMITTED BY. A file named 'Claim-Dated-05102020.zip' is highlighted with a red arrow. Below it, an expanded view shows a table with columns: CLAIM NUMBER, FANNIE MAE LOAN NUMBER, CLAIM TYPE, CLAIM STATUS, PAYEE, REQUESTED AMOUNT, APPROVED AMOUNT, CHECK #, and CHECK DATE. The 'CLAIM STATUS' column in this expanded view has a red box around it, and a red arrow points to it from above.

After the file is uploaded, there may be claims that were not auto-paid due to edits that generated on the claim. These claims will then be manually reviewed for reimbursement by being moved to **Submitted** status.

The **Claim Statuses** and definitions are listed below.

Claim Status	Definition
<b>Approved</b>	The claim generated no edits and was auto-paid successfully.
<b>Hold</b>	The claim is being reviewed or updated by the submitter.
<b>Rejected</b>	The claim generated a system error and needs further attention due to a system issue.
<b>Submitted</b>	The claim generated an edit(s) and therefore needs to be manually reviewed.
<b>Void</b>	The submitter pulled the claim back from Submitted status and manually cancelled the claim.

## Submitted Files

Servicers can locate submitted files by following the subsequent links: Home > Claims > Bulk Import > File Name. This menu lists all zip files uploaded by any users belonging to the servicer.

The screenshot shows the 'Recently Submitted' interface with a 'Refresh' button. The table below lists files with columns: FILE NAME, FILE ID, FILE STATUS, TOTAL RECEIVED, AUTO-APPROVED, REJECTED, MANUALLY REVIEWED, HOLD / VOID, SUBMITTED DATE, PROCESSED DATE, and SUBMITTED BY.

FILE NAME	FILE ID	FILE STATUS	TOTAL RECEIVED	AUTO-APPROVED	REJECTED	MANUALLY REVIEWED	HOLD / VOID	SUBMITTED DATE	PROCESSED DATE	SUBMITTED BY
BULK_CLAIM_6_182638.zip	2130	PROCESSED	1				1	08/16/2021	08/16/2021	
BULK_CLAIM_6_181822.zip	2129	PROCESSED	1			1		08/16/2021	08/16/2021	
BULK_CLAIM_6_094808.zip	2123	PROCESSED	2		1	1		08/16/2021	08/16/2021	
BULK_CLAIM_6_163106.zip	2116	PROCESSED	1			1		08/11/2021	08/11/2021	
BULK_CLAIM_6_145947.zip	2114	PROCESSED	1			1		08/11/2021	08/11/2021	

There are 11 columns containing claims data for these files. All the column headers are clickable and will allow the user to sort the data in the column by that field .

Field	Definition
<b>File Name</b>	Name of the file that the user assigned it before uploading into Property 360.
<b>File ID</b>	Unique ID that is system generated as part of confirmation of a file being uploaded.
<b>File Status</b>	The four available statuses are: Staging, Processing, Processed and Error.
<b>Total Received</b>	Contains total number of claims in the file.
<b>Auto-Approved</b>	Total number of claims with no edits which were to be auto-paid.
<b>Rejected</b>	Total number of claims which failed validations due to claim-level or line-level data issues. Servicers can fix data issues and re-submit these claims in a new bulk upload file.
<b>Manually Reviewed</b>	Total number of claims which generated a claim level or line item edit(s) and were manually processed in Property 360.
<b>Hold/Void</b>	Total number of claims which are in a hold or void status.
<b>Submitted Date</b>	Date the file was first uploaded into Property 360.
<b>Processed Date</b>	Date the Bulk Upload file was validated by the system and claims were created in Property 360.
<b>Submitted By</b>	System User who uploaded the bulk upload file into Property 360.

Click on the blue expansion icon  to the right of each line, to view the following claim file information:

The screenshot shows a 'Recently Submitted' section with a table of claim files. The table has columns for File Name, File ID, File Status, Total Received, Auto-Approved, Rejected, Manually Reviewed, Hold/Void, Submitted Date, Processed Date, and Submitted By. The first row is expanded to show details: Requested Amount (\$999,999.99), Reimbursement Amount, and File Level Error(s) (No Error Found). A red arrow points to the blue expansion icon on the right of the first row.

Field	Definition
<b>Requested Amount</b>	Total dollar amount <i>submitted</i> for reimbursement on the claim.
<b>Reimbursement Amount</b>	Total dollar amount <i>approved</i> for reimbursement on the claim.
<b>File level error(s)</b>	Any system issues existing on file.
<b>Download Claim File</b>	Button which will generate the .ZIP file containing the data uploaded into Property 360.
<b>View File Details</b>	Button which generates a new page containing additional information about the file.

## File Details

Servicers can locate the file details via the following path: **Home > Claims > Bulk Import > File Name > Expand Claim > View File Details**. The File Details page contains the financial information for the claims listed in the table. The status of the claim is also shown along with information that is both servicer entered and system generated. The definitions for some key fields can be found in the table below.

Field	Definition
<b>Claim Number</b>	Unique number that is system generated.
<b>Claim Status</b>	Available statuses are: Approved, Rejected and Submitted.
<b>Reimbursement Amount</b>	Total dollar amount <i>approved</i> for reimbursement on the claim.
<b>Check #</b>	Number that is generated for payments and tracking purposes.
<b>Check Date</b>	Date the payment was issued to servicer.

## Pending Submitter Action (PSA)

When an internal processor needs additional information or documentation from the servicer, they can send the claim to Pending Submitter Action (PSA) status. The submitter can provide additional context or the requested documentation to help prevent a claim denial. Claims sent to PSA will remain in that status for up to 60 days; however, the claim will auto-deny if the claim status is not updated within that timeframe.

Submitters can access PSA requests by clicking on **Search** or **Pending Servicer Action** to display the PSA Queue.

**PSA Queue** Download XLSX

CLAIM NUMBER	CLAIM ID	CLAIM TYPE	FANNIE MAE LOAN NUMBER	SERVICER LOAN NUMBER	SUBMITTER	COUNT DOWN	CLAIM STATUS	SUBMITTED DATE	REQUESTED AMOUNT	REIMBURSEMENT AMOUNT	CHECK DATE	CHECK NUMBER	SYSTEM	SOURCE
		RECON				0	Pending Submitter Action	09/15/2023	\$1,233.22				P360	P360API

		571 Claim				41	Pending Submitter Action	10/26/2023	\$100.00				P360	P360UI
		571 Claim				41	Pending Submitter Action	10/26/2023	\$100.00				P360	P360UI

**NOTE:** Property 360 includes a **COUNT DOWN** column to indicate how many days are remaining before a claim in a PSA status is auto-denied.

Once the PSA claim is opened, only the line items in a “Marked For Review” status can be updated.

1. Click on the pencil icon to open the line item.

**Note:** Only line items in the “Marked For Review” status are editable. The pencil icon appears black if the line item can be updated.

## Line Item Directory

The Line Item Directory is a spreadsheet that lists all expense reimbursement types and subtypes and corresponding descriptions. This spreadsheet allows users to:

- Leverage global keyword search capabilities.
- Filter and sort data capabilities.
- View historical line item changes.
- Review description of all expense subtypes.

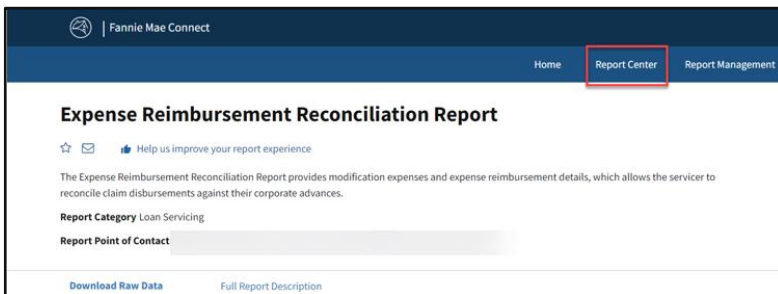

The screenshot shows an Excel spreadsheet titled 'Line Item Directory'. The spreadsheet has the following columns: Expense Type, Expense SubType, Start Date, End Date, Description, and History. The data is as follows:

Expense Type	Expense SubType	Start Date	End Date	Description	History
Attorney Fees	BK - Additional Court Appearance	1900-01-01	9999-12-31	Expense incurred due to an additional court appearance by a party to a suit, either in person or through an attorney, whether as plaintiff or defendant. The formal proceeding by which a defendant submits to the jurisdiction of the court.	
Attorney Fees	BK - Adversary Proceeding	1900-01-01	9999-12-31	Expense incurred due to an Adversary Proceeding in bankruptcy, a separate lawsuit filed within the bankruptcy case.	
Attorney Fees	BK - All Other Bankruptcy Fees	1900-01-01	9999-12-31	Expenses associated with additional bankruptcy fees associated with the specific action.	

## FMConnect

The FMConnect tile provides direct access to the Expense Reimbursement Reconciliation Report. To assist servicers that need to reconcile claim disbursements against their corporate advances, this report provides modification expenses and expense reimbursement details of the claim outcome. The report provides a snapshot of the total advance amount reported in the modification, disbursements made from expense reimbursement since the Last Paid Installment (LPI) date initiating the delinquency, and refunds made via CR322, which allows servicers to quickly determine if additional claims are needed or if a refund is due to Fannie Mae. The same data elements are available in Excel, .CSV, and .TXT formats. Report data is refreshed monthly.

Servicers can also access the [Report Center](#) to view their most used reports or favorites.

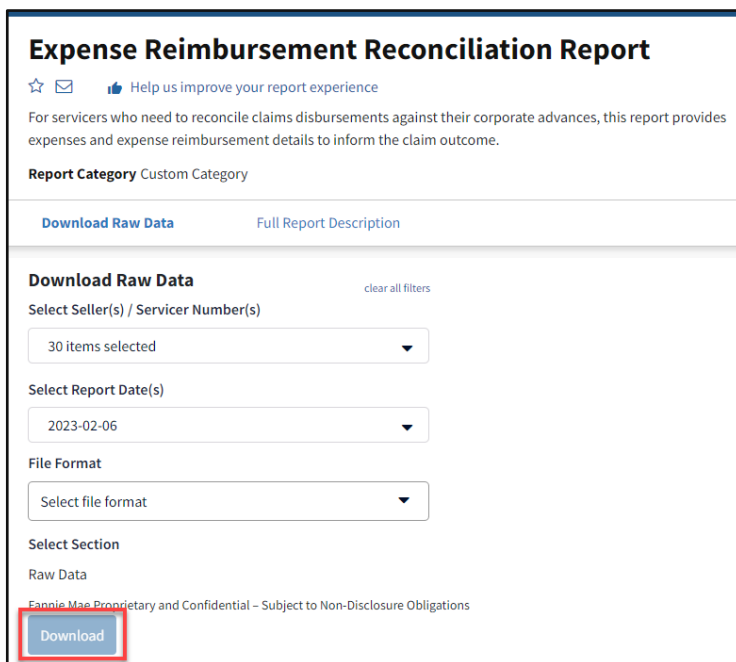

**NOTE:** Review section [E-5-01: Requesting Reimbursement for Expenses](#) in the Servicing Guide for details regarding reimbursement timelines.

## Reconciliation Report

Use the dropdown menus to select the **Seller(s)/Servicer Number(s)**, **Report Date(s)**, **File Format**, and then click **Download**. The report opens in Excel.

## Inquiries and Post Payment Review

The Inquiries and Post Payment Review (PPR) tiles link directly to the Inquiry Response Tool (IRT) and the RES – Post Payment Documentation Request, respectively. Users can submit questions to the IRT team or provide any requested documentation to the PPR team.

**Fannie Mae Claims Portal**

 Dashboard >	 Search >	 Create New Claim >	 Bulk Import >	 Pending Submitter Action >
 Line Item Directory >	 FMConnect >	 Inquiries >	 Post Payment Review >	 AAA Matrix <a href="#">↗</a>

**Alert List**

**\*\*For the best performance results, please use Chrome browser\*\***

**IRT - Customer Inquiry**

**RES - Post Payment Documentation Request**

**ADMIN - Application Administration**

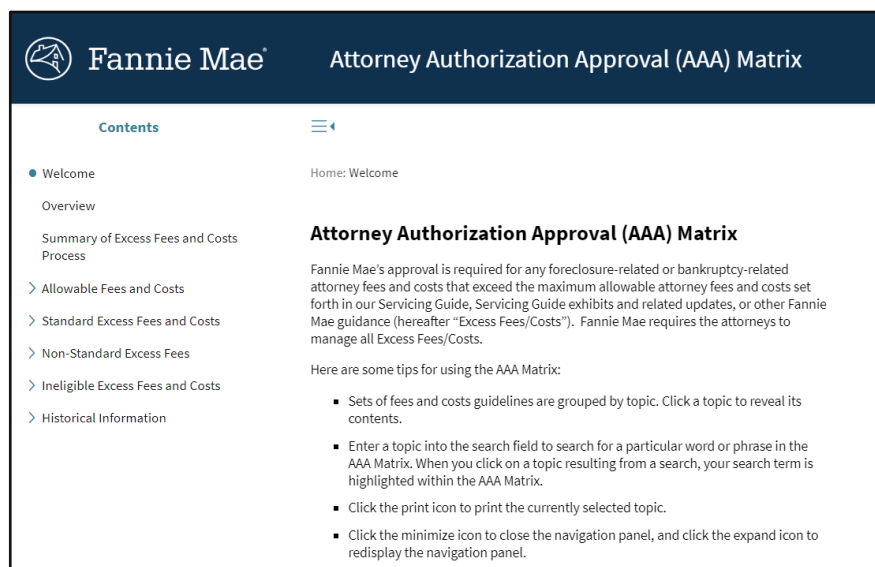

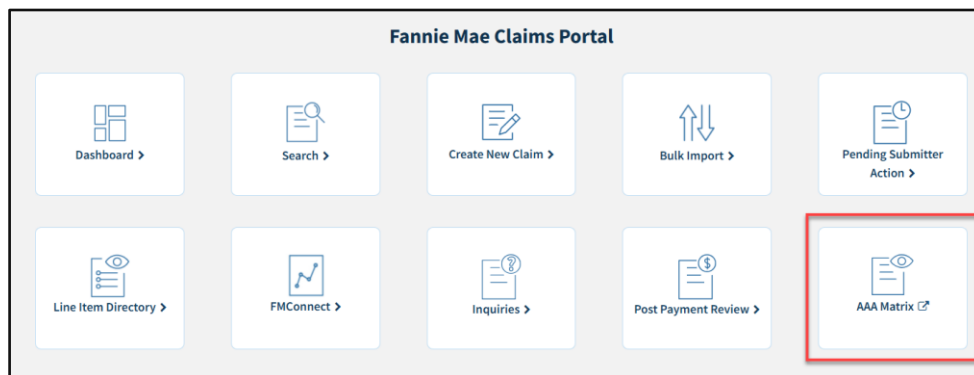

## AAA Matrix

Fannie Mae approval is required for any foreclosure or bankruptcy-related attorney fees and costs that exceed the maximum allowable set forth in the Servicing Guide, Servicing Guide exhibits and related updates, or other Fannie Mae guidance (hereafter “Excess Fees/Costs”). Fannie Mae requires attorneys to manage all Excess Fees/Costs.

Attorney fees and costs associated with bankruptcy or foreclosure are paid up to the published allowable as outlined in the AAA Matrix, which can be accessed from the AAA Matrix tile in Property 360.

## Expense Reimbursement Claims

An Expense Reimbursement Claim consists of three components:

- [Claim Details](#) – Includes both system-generated and servicer-provided loan and claim information.
- [Claim Level Edits](#) – Shows any claim-level edits preventing the claim for being eligible for auto-payment.
- [Line Item and Edit Details](#) – Shows current-claim expenses as well as historical expense information, current claim edits, and current claim decisioning comments.

Review the specific sections for additional details on each component.

## Claim Details

Claim and loan information are used in decisioning claims for reimbursement eligibility. Some of the data is sourced from internal Fannie Mae systems and other pieces of information are provided by the servicer upon submission (see [Single Claims Process Steps](#) for a list of servicer-provided data points).

Claims can be **Printed to PDF** or **Downloaded to XLSX** for to meet documentation and reporting needs by clicking the options in the far-right corner of the Claim Details page.

**Claim Details** Print PDF Download XLSX

Fannie Mae Claim ID	Claim Number Viv-Test_EE_001	Claim Type 571 Claim	Claim Status Pending Payment

## Loan History

The **Loan History** tab of the claim details provides historical request data for the life of the loan (including any request submitted by prior servicers).

The **Claim Number** is a clickable link that opens the selected claim in a separate tab, which allows users to have multiple claims open at one time. Users can also sort the expense line items using the **Service From Date** or filter using any of the fields with a filter box.

CLAIM NUMBER	LINE ITEM / TRANSACTION ID	BUCKET	EXPENSE TYPE	EXPENSE SUBTYPE	REQUESTED AMOUNT	REIMBURSEMENT AMOUNT	SUBMITTER NAME	VENDOR / SERVICER ID	SUBMITTED DATE	SERVICE FROM DATE	SERVICE TO DATE	LINE ITEM STATUS	SOURCE SYSTEM

## Edits

If an edit fires on a claim, it is no longer eligible for auto-payment and will move to a **Submitted** status. The claim can be moved back into **Hold** status so revisions can be made which may allow the claim to auto-pay. As long as the claim is in **Hold** status, data can be corrected, re-validated and submitted. When a claim is approved or acknowledged, it can no longer be revised by the servicer.

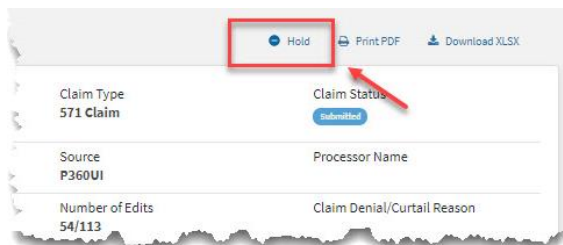

Scroll to the bottom of the page to view the Line Items, Loan History, Edits, and Comments. The **Edits** tab will help identify what corrections are required.

TRANSACTION ID	EDIT DESCRIPTION	SEVERITY	EDIT STATUS	CREATED DATE	UPDATED BY	UPDATED DATE	EXPENSE TYPE	EXPENSE SUBTYPE

87	Pre-payment Audit. Review expense against documentation.	Review Documentation	Overridden	08/22/2023		08/25/2023	Insurance	MI Premium (61)
88	Pre-payment Audit. Review expense against documentation.	Review Documentation	Overridden	08/22/2023		08/25/2023	Insurance	MI Premium (61)

To make updates:

1. Move the claim from **Submitted** to **Hold** status by clicking the Hold button in the top-right corner of the page.

**NOTE:** New action buttons appear and the claim moves into a Hold status.

2. Edit the claim data by clicking the pencil icon next to the line item requiring correction. The **Claim Line Item** screen will open.

Line Items												
EDIT	TRANS ID	FM LINE ID	EXPENSE TYPE	EXPENSE SUBTYPE	SERVICE START DATE	SERVICE END DATE	RECOVERABLE	REQUESTED AMOUNT	REIMBURSEMENT AMOUNT	OPEN EDITS	STATUS	
		87316985	Attorney Fees	BK - All Other Bankruptcy Fees	10/23/2023		Non Recoverable	\$100.00	\$100.00	3	Hold	
<b>Grand Total</b>								\$100.00	\$100.00			

The **Claim Line Item** pop up box will open and display all updatable fields and allow attachments to be added.

**NOTE:** Attaching documentation is not necessary unless documentation is requested as part of the manual review process.

Per Loan Number \* Seller Servicer ID \* **Claim Status** Hold

Type \* Request Date \* First Time Vacancy Date

Claim 8/15/2021 6/2/2021

If there are no errors, the **Validation Successful** popup message displays.

The screenshot shows the 'Property 360' interface with a 'Validation Successful' popup message in the top right corner. The main area displays the 'Claim Details' form with the following fields:

- Fannie Mae Loan Number \*
- Servicer Loan Number \*
- Seller Servicer ID \*
- Claim Status: **Hold**
- Claim Number \*
- Claim Type: 571 Claim
- Request Date/Date Identified \*: 11/2/2023
- First Time Vacancy Date: mm/dd/yyyy

6. Click **Submit**.

- If the edit is resolved, the **Claim Status** indicator changes to **Approved**.
- If the claim is not approved, repeat this process, making updates, validating, and submitting until all edits are resolved. If the edits cannot be resolved, the claim will proceed with manual review.

This screenshot is similar to the previous one but highlights the 'Submit' button in the top right of the 'Claim Details' form with a red box and an arrow. The 'Claim Status' remains 'Hold'.

### Comments

The **Comments** tab provides a consolidated view into comments provided on the claim. Servicers may add claim-specific information in the Comments section upon claim submission, to assist in claims processing. Fannie Mae will utilize claim comments to provide details on Claim Level Edits and/or Claim Level Denial reasons.

DATE	USER	SOURCE	VISIBILITY	COMMENT
05/08/2024 10:21 AM		Internal	All	Claim denied: Total of previously reimbursed claim amounts plus current claim exceeds the approved Total Capitalized Advances amount. Please re-review your expenses to ensure that it doesn't exceed the capped amount, and any non-recoverable expenses are marked as such on the claim. Any resubmissions must be within 60 days of the Case Closed Date.

### Chronology

The **Chronology** tab displays every claim status from initial creation through claim resolution.

DATE	TYPE	USER	STATUS	USER ASSIGNMENT
08/30/2024 04:01 AM	Claim Status		Paid	
08/28/2024 06:06 PM	Claim Status		Pending Payment	
08/27/2024 07:14 PM	Claim Status		Approved

## Auto-Generated Claims

Property 360 automatically generates claims for workout incentives within days of the workout case closing. Reporting and search functionality now includes these claims and is available immediately within Property 360.

With the inclusion of these claims, servicers may see an increase in denied or curtailed claims; however, there is not an actual increase in denied claims. Rather, there is now visibility into all claims, where previously, claims were only created when a payment was applicable.

Servicers should submit inquiries related to workout incentives using the Inquiry Response Tool (IRT).

## Business-to-Business (B2B) System Integration

B2B System Integration with Property 360™ for systemic claim submissions and real-time status reports is available for interested servicers. To get started, [submit an inquiry](#) referencing interest in B2B system integration to schedule a discovery call regarding integration technology requirements.

## Claim Type Descriptions

Claim Type indicate the type of reimbursement being requested. Below is a list of available claim types and a description of the type.

Claim Type Name	Claim Type Code	Description
571 Claim	571 Claim	Business as usual expense reimbursement claims.
Core Logic Tax Validation Simplify Initiative	CL TAX	Not to be used for claim submissions.
Fannie Mae Expense Automated Processing (EAP) Internal	EAP	Reserved claim type for Fannie Mae internal use only.
Fannie Mae Modification	FNMA Mod	Reimbursement claims for expenses incurred during a loan modification.
Home Equity Conversion Mortgage	HECM	Reimbursement claims for expenses incurred on Home Equity Conversion Mortgage (HECM) loans.
Home Equity Conversion Mortgage Recon	HECM Recon	Reserved for reconciliation projects on expenses incurred on Home Equity Conversion Mortgage (HECM) loans. Do not use for business-as-usual processing.
Non-Performing Loan	NPL	Reimbursement claims for expenses incurred on both Non-Performing and Re-Performing loans.
Reconciliation	RECON	Used for servicer reconciliation.
Statute of Limitations	SOL	Reserved for claims with incurred expenses that predate a statute of limitations.

## FAQs

Click on **FAQ** in the top-right corner to view helpful information for navigating and utilizing each module of the application. Property 360 Claims product support, site navigation inquiries, or claims processing and escalations, can be requested by submitting an inquiry through the [Expense Reimbursement Inquiry Response Tool](#).

Reference the [Servicer Expense Reimbursement Job Aid](#) for additional information.

## Glossary of Terms

Terms referenced within the user guide are listed below; terms with red asterisk are required fields.

Term	Definition										
<b>Action *</b>	<p>Identifies the type of interaction for this claim. Use the following action types:</p> <table border="1"> <thead> <tr> <th>Action Types</th> <th>Definition</th> </tr> </thead> <tbody> <tr> <td><b>New</b></td> <td>Identifies a first-time submission.</td> </tr> <tr> <td><b>Submit</b></td> <td>Claim is sent for auto-payment or manual review.</td> </tr> <tr> <td><b>Validate</b></td> <td>Ensures all data has been entered correctly and allows the user to make corrections prior to submission.</td> </tr> <tr> <td><b>Void</b></td> <td> Cancels a previously submitted claim.</td> </tr> </tbody> </table>	Action Types	Definition	<b>New</b>	Identifies a first-time submission.	<b>Submit</b>	Claim is sent for auto-payment or manual review.	<b>Validate</b>	Ensures all data has been entered correctly and allows the user to make corrections prior to submission.	<b>Void</b>	Cancels a previously submitted claim.
Action Types	Definition										
<b>New</b>	Identifies a first-time submission.										
<b>Submit</b>	Claim is sent for auto-payment or manual review.										
<b>Validate</b>	Ensures all data has been entered correctly and allows the user to make corrections prior to submission.										
<b>Void</b>	Cancels a previously submitted claim.										
<b>Attachment Names</b>	<p>The list of documents being attached to the line item. There is a maximum of 5 attachments per line item. These should be delineated with commas in-between the file names without spaces. See example below. The file name can be numerical as well but when there is more than one, it needs to be separated by commas.</p> <table border="1"> <thead> <tr> <th>Attachment Names</th> </tr> </thead> <tbody> <tr> <td>22222</td> </tr> <tr> <td>22222</td> </tr> <tr> <td>mikel,test,file</td> </tr> <tr> <td>mikel,test,file</td> </tr> </tbody> </table>	Attachment Names	22222	22222	mikel,test,file	mikel,test,file					
Attachment Names											
22222											
22222											
mikel,test,file											
mikel,test,file											
<b>Bankruptcy Case Number</b>	Only required for Bankruptcy expenses. Five-digit case ID assigned to the bankruptcy case.										
<b>Bankruptcy Chapter</b>	Only required for Bankruptcy expenses. The drop-down includes options for chapters 7, 9, 11, 12, 13 and 15 and should be included as applicable for all Bankruptcy items.										
<b>Bankruptcy Filed Date</b>	Only required for Bankruptcy expenses. Date the bankruptcy case was filed.										
<b>Cancel Date</b>	Only required for insurance expenses. Date the insurance policy was cancelled. If the policy was not canceled, leave the field blank.										
<b>Claim Comments</b>	Additional information about the loan/claim provided for documentation purposes.										
<b>Claim Number *</b>	ID for the claim. Servicers are responsible for claim number creation. The claim number must be unique for each servicer. For example, claim number 123 can only be used once per servicer unless the first claim has been voided.										
<b>Claim Type *</b>	<p>The claim type option should be selected from the drop-down menu to indicate the population for which the claim belongs. This will determine what rules apply to the claim and how it will be processed. Examples are 571 Claim, RECON, HECM, etc.</p> <p>Refer to the <a href="#">Claim Type Descriptions</a> section for full list of claim types and definitions.</p>										
<b>Expense Sub Type *</b>	Sub-category drop-down for the expense being submitted. If Expense Type is populated, only Sub-categories within the selected Category are available. If the desired Sub-category is not available, consider selecting another Category.										
<b>Expense Type*</b>	Category drop-down for the expense being submitted. Access the Line Item Directory tile in Property 360 for a list of expenses.										
<b>Fannie Mae Loan Number *</b>	Loan number assigned by Fannie Mae.										

<b>First Time Vacancy Date *</b>	Earliest date which property was reported vacant.								
<b>Insurance Type</b>	Only required for insurance expenses. The type of insurance policy on the loan. Options are <b>lender-placed</b> or <b>homeowner placed</b> and are available from a drop-down menu.								
<b>Judicial Indicator</b>	Only required for foreclosure expenses. Options are <b>judicial</b> or <b>non-judicial</b> and are available from a drop-down menu.								
<b>Line Item Comments</b>	Additional information about the specific expense provided for documentation purposes.								
<b>Measurements</b>	Used for lot sizes on landscaping expenses which are in the property preservation category.								
<b>Non-Recoverable Indicator</b>	<p>Drop-down used to indicate recoverability from the borrower in the event of a reinstatement or payoff. The drop-down includes the options <b>blank</b>, <b>non-recoverable</b> and <b>not-yet recovered</b>.</p> <table border="1"> <thead> <tr> <th>Drop-down Option</th> <th>Definition</th> </tr> </thead> <tbody> <tr> <td><b>Blank</b></td> <td>This field is left blank when an expense will be recovered during reinstatement and/or payoff.</td> </tr> <tr> <td><b>Non-recoverable</b></td> <td>Advances not expected to be collected at time of reinstatement or pay-off.</td> </tr> <tr> <td><b>Not-yet recovered</b></td> <td>Advances which are expected to be collected at time of reinstatement or pay-off.</td> </tr> </tbody> </table>	Drop-down Option	Definition	<b>Blank</b>	This field is left blank when an expense will be recovered during reinstatement and/or payoff.	<b>Non-recoverable</b>	Advances not expected to be collected at time of reinstatement or pay-off.	<b>Not-yet recovered</b>	Advances which are expected to be collected at time of reinstatement or pay-off.
Drop-down Option	Definition								
<b>Blank</b>	This field is left blank when an expense will be recovered during reinstatement and/or payoff.								
<b>Non-recoverable</b>	Advances not expected to be collected at time of reinstatement or pay-off.								
<b>Not-yet recovered</b>	Advances which are expected to be collected at time of reinstatement or pay-off.								
<b>Paid Date</b>	Date the expense was paid to the invoicing party.								
<b>Payee/Seller Servicer ID *</b>	Designate the (9-digit) Servicer ID number to send reimbursement payment.								
<b>Quantity *</b>	Used for the number of expenses being submitted on a single expense line.								
<b>Referral Date</b>	Only required for attorney fee and cost expenses. Date the bankruptcy or foreclosure case was referred to the law firm.								
<b>Request Date *</b>	The date the claim is submitted to Fannie Mae.								
<b>Service End Date</b>	The date the expense was terminated. End dates are commonly used for insurance and tax expenses, or if more than one expense is submitted within the same line with a range of dates.								
<b>Service Start Date</b>	The date the expense was incurred.								
<b>Servicer Loan Number *</b>	Loan number assigned by the servicer.								
<b>Submitter POC *</b>	Name of person submitting the claim and who should be contacted for questions or inquiries regarding the claim. This should be added in this format: first name, last name.								
<b>Transaction ID *</b>	Corresponds to the line item/expense type being submitted. Transaction ID must be unique within this claim. Servicers are responsible for Transaction ID creation. Typically, servicers will utilize a transaction code from within their accounting systems to reconcile the expense.								
<b>Unit Price *</b>	Dollar amount for each expense quantified on a single expense line.								

Further assistance on this process and/or technical support can be obtained via an inquiry within the [Expense Reimbursement Inquiry Response Tool \(IRT\)](#).
