

Master Servicing Portfolio Manager

Frequently Asked Questions

June 07, 2022

General

Q1. What is Master Servicing Portfolio Manager?

Master Servicing Portfolio Manager offers management oversight and self-service functionality related to performance, loan activities and portfolio management that will help drive efficiency and straight through processing.

Q2. What features will Master Servicing Portfolio Manager have?

- The new self-service management tool provides servicers with access to Loan and Cash exceptions that require servicer review and confirmation.
- Servicers can use the tool to enter resolution plans and resolution dates to address these exceptions.

Q3. What are the benefits of using Master Servicing Portfolio Manager?

- Self-service access to information, enabling adherence to Fannie Mae's investor reporting requirements.
- Visibility into consolidated servicer investor reporting metrics (at the end of the period) to help drive improvements and process enhancements.
- Increased transparency between servicer and Fannie Mae related to loan and cash exception management.

Q4. When will Master Servicing Portfolio Manager be available?

Master Servicing Portfolio Manager will be introduced on June 6, 2022.

If you have questions about the Master Servicing Portfolio Manager or have feedback on Master Servicing Portfolio Manager features and/or functionalities, please email Master_servicing@fanniemae.com.
