

PDART Access Job Aid

The Property Data API Review Tool (PDART) is an available application in Technology Manager for lenders, mortgage insurers (MI), and Desktop Underwriter® (DU®)-only profiles. Service providers integrated with the Property Data API must request access from the Digital Alliances team.

Process for lenders, mortgage insurers, and Desktop Underwriter-only profiles:

1. PDART is an available application in [Technology Manager](#).
2. Corporate administrators can self-serve provision PDART via Technology Manager using Application Name: PDART and Role Name: PDARTUI.
3. Corporate administrators and user administrators are responsible for managing user application access.

Process for Service Providers:

1. Service providers integrated with the Property Data API must request PDART access at digital_alliances_support@fanniemae.com.
2. PDART is an available application in [Technology Manager](#).
3. Corporate/user administrators can self-serve provision PDART via Technology Manager using Application Name: PDART and Role Name: PDARTUI.
4. Corporate administrators and user administrators are responsible for managing user application access.
