

Uniform Closing Dataset Integration Impact Memo

B2B Gateway Cloud Migration

Oct. 12, 2023

Dear Integrated Partner,

Fannie Mae will be migrating the Uniform Closing Dataset (UCD) Environment from an on-premises application to the cloud. The implementation timeline has been revised since the [previous July 13 communication](#) from last year.

To maintain active integration with UCD during and after the cloud migration, **partners** must update their URL to successfully test UCD XML file submissions to the UCD Collection Solution by **Jan. 19, 2024**.

Test Environment Endpoints:

- Current URL: <https://businessgateway-clve.efanniemae.com/service>
- New URL: <https://api-flex-clve.fanniemae.com/service>

Production Environment Endpoints:

- Current URL: <https://businessgateway.efanniemae.com/service>
- New URL: <https://api-flex.fanniemae.com/service>

NOTE:

- User IDs are not supported. Upon cloud migration, only System IDs will be supported for UCD system-to-system integrations. Exceptions are provided to the current Individual User IDs for a limited period.
- File submitters will need to make changes to their endpoints.
- There are no changes/impacts for the file preparers.

Users can migrate to production on the week of Jan. 22, 2024, once the testing is complete and they have confirmed with their Fannie Mae account representatives.

Please refer to the testing package [here](#).

Additional information

Please contact your account representative for assistance or submit your questions to our UCD mailbox: UCD-Integration@fanniemae.com.

For more information on UCD, visit the [Fannie Mae UCD](#) and [UCD Collection Solution](#) pages.
