

Enhancements to Your Selling & Servicing Guide Experience

Background

On April 5, we are updating the web pages that house our *Selling & Servicing Guide* (Guides), resulting in a more seamless user experience. The website enhancements do not impact the content or layout of the Guides. Existing URLs and redirects will remain active and functional.

How You Can Prepare

While the *Selling* and *Servicing Guide* home page URLs will remain the same, bookmarks to specific sections within each Guide, should be updated after April 5. All Guide sections will temporarily redirect to the relevant content to ensure a smooth transition, and these redirects will remain in place until January 2025. To ensure uninterrupted access to essential Guide resources, please update your bookmarked links as soon as possible.

Benefits

Enjoy an enhanced user experience through improved content navigation and functions, featuring:

- Quick access to frequently used Guide resources.
- New, keyword-optimized search functionality.
- New search results page sortable by date or relevance for improved usability.
- Enhanced clickable breadcrumb trail to easily access related content.
- Access Guide topics in fewer clicks.

We continuously strive to improve your experience. This update is part of our commitment to providing you with the best possible service and resources.
