To gain authenticated access, users must ensure that they have obtained a Uniform Collateral Data Portal® (UCDP®) number and been provisioned access by their corporate administrator in Technology Manager. Applications & Technology

Uniform Collateral Data Portal

A single portal for the electronic submission of appraisal data files

To facilitate electronic delivery of appraisal report data to the government-sponsored enterprises (GSEs), Fannie Mae and Freddie Mac developed the Uniform Collateral Data Portal® (UCDP®) as part of the [Uniform Mortgage Data Program®](#) (UMDP®).

If an appraisal report is required, lenders must use UCDP to submit electronic appraisal data files that conform to all GSE requirements – and when applicable, the Uniform Appraisal Dataset (UAD) – before the mortgage is delivered to Fannie Mae or Freddie Mac.

New UCDP Accounts: To use UCDP, your company must first be set up directly with Fannie Mae for this application. See [How to Register for UCDP](#) for more information. Your UCDP Lender Administrator (Admin) can invite additional administrators and users to register for the portal. If you need assistance identifying the UCDP Lender Admins for your organization, contact the UCDP Support Center at 1-800-917-9291 for assistance.

Existing UCDP Accounts: A current UCDP Lender Admin can manage their users and accounts in [Technology Manager](#); view the [job aid](#) to learn more. If you don't have an active UCDP Lender Admin for your organization, click [register a UCDP Lender Admin](#). For additional guidance on managing accounts and users in UCDP, refer to the [Lender Admin Reference Series](#).

Once you have been redirected to the “Getting Registered for Uniform Collateral Data Portal” page, select the **Correspondent Form** link flagged below and complete the registration form. While completing the registration form, ensure that the **Technology Manager Corporate Administrator (CA)** section of the registration is completed as this user will have the ability to set up and manage Fannie Mae application access for users.

Fannie Mae®

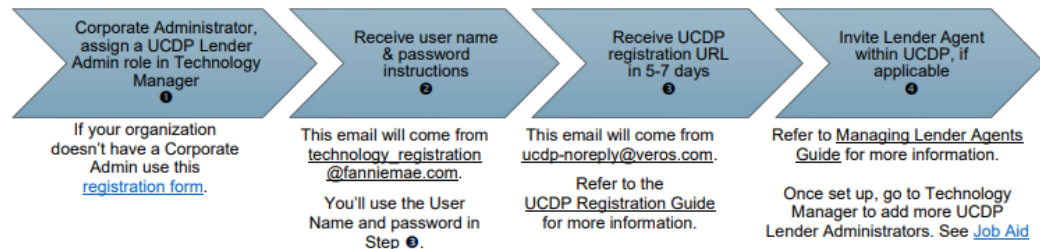

Getting Registered for Uniform Collateral Data Portal

To use Uniform Collateral Data Portal® (UCDP®), your company must first be set up directly with Fannie Mae for this application. The registration process begins with an initial setup process to establish your organization-level information in the portal. This set-up is completed by one designated user known as the **UCDP Lender Administrator**, who has the ability to invite additional administrators and users to register for the portal.

The instructions for setup are divided by user group:

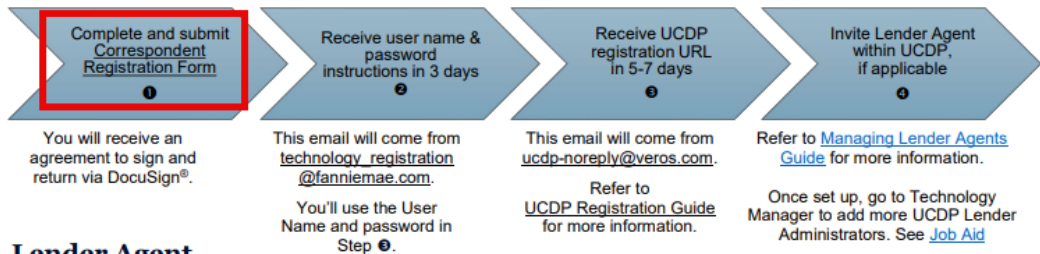

Lender

This section is for approved Fannie Mae Seller Servicers. The UCDP Lender Administrator or Technology Manager Corporate Administrator for your organization should complete the steps below to set up UCDP using your company's assigned Fannie Mae Seller/Service Number.

Correspondent

Correspondents submit appraisals through the UCDP for loans they intend to close in their own names and do not have a Fannie Mae Seller/Service Number.

Lender Agent

Upon completing the UCDP registration form, submit the form to UCDP_Setup@fanniemae.com. Once you have been approved and received your UCDP account credentials, ensure that the corporate administrator has created the necessary users in **Technology Manager**. Once the users have been created, your corporate administrator can assign the form 1010 role in the ECRM application to access the form 1010 landing page as highlighted below.
