

Desktop Underwriter/Desktop Originator DU Version 10.2 Integration Impact Memo

January 30, 2018

Updated | March 14, 2018

Updated the number of Retired Messages in the table below from four to six.

During the **weekend of March 17, 2018**, Fannie Mae will implement Desktop Underwriter® (DU®) Version 10.2. The changes in this release will apply to new loan casefiles submitted to DU on or after the weekend of March 17, 2018. Loan casefiles created in DU Version 10.1 and resubmitted after the weekend of March 17 will continue to be underwritten through DU Version 10.1.

Please review the following updates, in addition to the [Desktop Originator® \(DO®\)/DU Version 10.2 Release Notes](#) to ensure that your integrated system(s) will be prepared to support this release.

New, Modified and Retired DU Underwriting Findings Messages

This release will introduce new messages, modify existing messages, and retire certain messages that are displayed in the DU Underwriting Findings report.

How will this affect my integrated system?

Integrated systems that parse the DU Underwriting Findings Codified Findings (XML file) or report data file (RES file) may require updates to support the message changes. Reference the table below for a preliminary assessment of the expected message changes

New Messages	Modified Existing Messages	Retired Messages
14	12	6

DU Version 10.0 Retirement

DU Version 10.0 will be retired to coincide with the release of DU Version 10.2 on March 17, 2018. Customers will not be able to resubmit loan casefiles to DU Version 10.0 after March 17. To obtain an updated underwriting recommendation after the weekend of March 17, 2018, customers must create a new loan casefile and submit it to DU.

Release Support

DU Version 10.2 will be implemented in the DU integration environment approximately thirty days prior to the production release date. Integration partners will be notified via e-mail from Integration News (integration_news@fanniemae.com) after implementation.

If you have questions about the integration impact and if you require support specific to this release, contact [Release Support](#). For more information about DU, visit the [DU web page](#) and contact your Fannie Mae Technology Development Manager or representative.
