

## Uniform Closing Dataset (UCD)

### *New Test Environment for UCD*

As of April 1<sup>st</sup>, 2018, Uniform Closing Dataset (UCD) will be available on a new testing platform. This memo highlights two steps integrated partners must make in order to submit UCD XML Files into the B2B gateway successfully on the new testing platform. Please begin using the new UCD Test environment as soon as possible.

- 1) **Change in Credentials (Lenders ONLY)** – Lender users who have active UCD Production credentials automatically gain access to the new UCD Test Environment. The new UCD Test environment will accept your UCD Production credentials. Please begin using the new UCD Test environment as soon as possible.
- 2) **New Endpoints** – Update your endpoints for the User Interface and B2B Gateway as follows:
  - UCD Collection Solution (UI) - <https://ucd-clve.fanniemae.com/UCDepot/>
  - UCD B2B Gateway - <https://businessgateway-clve.efanniemae.com/service>
- 3) **Change in ‘EventName’ Headers:** For Direct Integration with the B2B gateway, please be sure to use the correct EventName Header for the Production and CLVE environment when submitting your payload request to the B2B Gateway. The new UCD Test Environment will not recognize any EventName Header with “\_INTG” in the Value Description. For more details please see the UCD Integration Guide.

**Example:**

Header	Value / Description	Required
EntityName	UCD	Y
EventName	SYNC_SUBMIT	Y (Production and Test )

### **Important Message: Technology Solution Providers**

**If you are directly integrated to the B2B Gateway, you must also update the EventName Headers as noted in the UCD Integration Guide. Our Digital Alliance Managers and Integration Consulting Team will work with you in getting connected to the new UCD Test Environment.**

**NOTE:** *Technology Solution Providers who do not have UCD CLVE test credentials must submit an access request to their Alliance Manager or [Integration Consulting Team](#).*

## Additional Resources

For more information about this new test environment, please send an email to the [UCD Integration Mailbox](#).
