

AMN / HSSN 24.1 Release Notes

May 4, 2018

During the weekend of May 12, 2018, Fannie Mae will implement Release 24.1, which includes the changes and enhancements described below for Asset Management Network (AMN)/HomeSaver Solutions™ Network (HSSN).

To implement this release, AMN/HSSN will not be available for processing on May 12, 2018 from 7 a.m. Eastern Standard Time until 4 p.m. Eastern Standard Time. Servicer Mortgage Default Underwriter™ (SMDU™) Case Management will also be unavailable during this time. Due to related work, it is possible for SMDU Auto Decision functionality to experience some intermittent outages, since SMDU relies on some HSSN case data. If you experience an exception, please simply wait a few minutes before resubmitting.

AMN/HSSN Report Generation Updates

In addition, during the 23.1 release back in October of 2017, AMN/HSSN reports were impacted and users began receiving system errors when trying to generate a PDF version of the reports. As a result, users were instructed to download Excel versions of the reports in lieu of the PDF versions. This release will **restore** the ability to generate PDF versions of the following reports.

- Form 571: Create Disbursement
- Form 571: View/Update Disbursement

PDF versions of additional reports will be restored in an upcoming release.
