Pricing & Execution – Whole Loan® and Servicing Execution Tool Overview

Pricing & Execution – Whole Loan® (PE – Whole Loan) is Fannie Mae’s web-based application that provides approved Fannie Mae sellers (the “**Seller**”, and if more than one, the “**Sellers**”) the opportunity to commit and sell a single mortgage loan for a specific borrower and property which conforms to all applicable requirements in the Guides on a Best Efforts or a Mandatory servicing released basis.

The Servicing Execution Tool™ (“**SET**”) component of PE-Whole Loan is Fannie Mae’s web-based solution for facilitating the concurrent transfer of servicing rights from the Sellers that commit and sell mortgage loans to Fannie Mae using PE-Whole Loan, to approved Fannie Mae servicers (the “**Servicer**”, and if more than one, the “**Servicers**”), while providing a Servicing Released Premium (“**SRP**”) best execution price. A Seller and a Servicer using SET shall enter into the PE – Whole Loan/Servicing Execution Tool Mortgage Loan Servicing Purchase and Sale Agreement set forth in the Fannie Mae Selling Guide (the “**Purchase and Sale Agreement**”), the terms of which shall govern all sales of servicing rights between them using SET. All terms that are used in these Servicing Execution Tool Servicing Transfer Instructions which are not defined herein shall have meaning set forth either in the Purchase and Sale Agreement or the Guides, as applicable.

Sellers that do not service the loans they originate can request an SRP at the time of commitment or view indicative pricing via browse pricing functionality available via PE – Whole Loan. A Servicer’s SRPs will be provided only to a list of active Sellers with which the Servicer has agreed to do business. SET facilitates the process of presenting a servicing released execution price, and provides the Servicers with the tools to view and manage their pipeline of commitments in the committing application.

SET provides the following services:

- An interface that enables participating Servicers to import an SRP schedule, including adjustments to the schedule and loan-level fees associated with taxes, processing, certifications, and the like.
- The ability for a Servicer to create a Seller-specific SRP schedule by making adjustments to their base SRP schedule.
- A pipeline-management interface and export tool that enables participating Servicers to view and create reports regarding their SRP commitments.
- Drafting or crediting a Servicer’s designated account for SRPs or escrows, and providing a Seller with a single all-in funding, eliminating the need for additional funds transfer between the Seller and the Servicer in most instances.

Once a mortgage loan is delivered to Fannie Mae for which servicing rights have been sold through SET, all edits are cleared and the applicable mortgage note has been received and certified by the applicable document custodian, Fannie Mae will settle that mortgage loan. The calculation of all funds required to purchase the mortgage loan through PE – Whole Loan and the SRP through SET will be conducted and such funds disbursed in accordance with the terms and conditions of the Guides and as set forth on the PE - Whole Loan Commitment: Confirmation screen and as provided to the Servicer through payee summary in SET. For further information on this process, please refer to the [PE – Whole Loan Job Aids](#).

The settlement of the Mortgage Loan (the Purchase Date) triggers the delivery timeline to the Servicer. The Seller must deliver all sales process delivery documentation to the Servicer as reflected on the **SET Document Checklist** not more than 3 Business Days after the Purchase Date. Please see the section below titled “Late & Incorrect File Delivery to the Servicer and the Impacts” for additional information.

When selling the servicing rights of Mortgage Loans through SET, it is the Seller's responsibility to adhere to these instructions, including Servicer specific requirements.

The Seller and the Servicer each acknowledge and agree that electronic signatures and electronic records are permitted hereunder to the same extent they are permitted in the Guides. Other than the mortgage note, copies of documents that have been signed or recorded electronically are to be considered "originals" for all purposes of the Guides.

The following sections, set forth below in alphabetical order, cover specific topics related to SET. There are several documents that are highlighted throughout, which are located at the end of this document. They include:

- SET Document Checklist.
- Servicer Packaging Procedures.
- Final Document Checklist.
- Seller Payment/Refund Transmittal.
- Borrower Mailing/Billing Address Certification.

Assignments

If applicable, the Servicer must receive the original recorded assignment of the Mortgage. The delivery file must include a copy of the assignment sent for recording. The original recorded assignment together with the **SET Final Document Checklist** must be forwarded to the Servicer's Final Recorded Documents Division detailed in the section titled, "Final Documents". See the table below for Servicer specific assignment language:

	CMC Funding
Servicer name for the assignment (do not use abbreviations other than as permitted by the Servicer)	CMC Funding, Inc.
State of Incorporation	North Carolina
County of Incorporation	Guilford County
Servicing Address	814 A1A North, Ste. 303 Ponte Vedra Beach, FL 32082
Optional address to be included in assignment endorsement	Same as above
Questions relating to assignment endorsements can be addressed by:	Servicing Oversight 904-404-3562 loanservicing@cmcfunding.com

Failure to provide evidence of an assignment sent for recording in the Servicer's name is cause for the Servicer and Fannie Mae to assess late fees against the Seller.

Delivery/Settlement Errors and the Reconciliation Process

Payments & Curtailments from the Borrower

When the Seller receives a payment, curtailment or any settlement relating to the Mortgage Loan after the Purchase Date, the Seller must forward the amount due to the Servicer within 24 hours after receipt from the borrower, per the Servicer's instructions. To do this, the Seller must:

- Endorse the check to the Servicer and forward
- OR send a wire to the Servicer, if the amount due is on deposit with the Seller
- AND submit the completed **Seller Payment/Refund Transmittal** to the Servicer.

Payments and curtailments received prior to the Purchase Date must be applied to the loan balance prior to the Purchase Date.

Escrow Deposits

If the Seller has entered an incorrect figure in the escrow deposits field in PE-Whole Loan, then the Seller must notify the Servicer immediately. For overages, the Seller must provide the Servicer with documentation to support a request for refund and wire instructions for the refund. For shortages, the Seller must wire the amount due to the Servicer and submit the completed **Seller Payment/Refund Transmittal** to the Servicer.

Post Delivery Funding Adjustments

Any escrow disbursements pending/payable within 30 days of servicing transfer and/or the Fannie Mae Purchase Date are the responsibility of the Seller.

Unpaid Principal Balance Discrepancies

If an unpaid principal balance discrepancy is suspected, the following process is to be followed:

Research: The Seller must research the discrepancy.

- Review your records (e.g., Fannie Mae Purchase Advice, Mortgage Note, etc.)
- Compare Fannie Mae's loan-level records with your records to determine the scope and cause of the discrepancy.

Assemble: Assemble documentation that supports your requests.

- Download and complete [Post-Purchase Adjustment \(PPA\) Request Form](#).
- Provide Supporting Documentation to validate your request
 - Supporting documents include the Note, Purchase Advice, and Loan History.
 - Supporting documents should have the Fannie Mae loan number and Seller/Servicer number in the file name.
 - Please note - additional documentation may be required.

Encrypt: Encrypt all documents containing Nonpublic Personal Information (NPI).

Email: Email the PPA Request Form, required supporting documentation, and a detailed explanation of your request to one of the contacts below:

- If you have been contacted by Fannie Mae staff regarding a post-purchase adjustment, continue to work with them directly.
- **Servicers:** Send servicing related post-purchase adjustment requests to your assigned Fannie Mae Investor Reporting analyst.
 - If the Fannie Mae Investor Reporting analyst is not known, contact 1-888-326-6438, Option 3 (Servicing), Option 1 (Investor Reporting) for assistance.

After submission: Sellers should review the *Post-Purchase Adjustment Letter* report, available in [Fannie Mae Connect](#) for adjustment details, and take the corrective action indicated below:

- If the corrective action results in additional funds due the Seller, please ensure that you have a designated account for Automated Clearing House (ACH) processing.

- If the corrective action results in additional funds due Fannie Mae, please ensure that sufficient funds are available in that account prior to the scheduled draft date (as indicated in the draft notification on Fannie Mae's *Committing and Delivery Fee Draft Notifications* site).
- If corrective action results in a loan being ineligible for delivery to Fannie Mae, your Fannie Mae Account Manager will contact you to determine the next necessary steps.

The seller is responsible for notifying the servicer of any changes to the loan data or borrower record as a result of the post-funding adjustment.

NOTE: Processing time for most post-purchase adjustment requests, from initial submission through data correction, is 4–6 weeks. Certain requests may require additional levels of review, or additional documentation from the lender, and/or approval(s) that need additional time to process.

Escrows

If any portion of a loan is escrowed, it is considered as an escrowed loan in PE-Whole Loan. The applicable escrowed amounts should be entered into PE-Whole Loan and included in the Servicer Required Fields (SRF) file imported into PE-Whole Loan by the Seller and attached to the commitment.

NOTE: The required SRF fields and the content of the file to be imported into PE-Whole Loan are subject to change without notice at each Servicer's discretion.

Final Documents

All original final documents specified in this section for an individual loan and identified on the SET Final Document Checklist (the "**Final Documents**") must be delivered to the Servicer as soon as finalized and not more than [6 months] after the Fannie Mae Purchase Date. Any and all Final Documents must be attached to a completed **SET Final Document Checklist**.

The Servicer reserves the right to charge a penalty fee as specified in the Purchase and Sale Agreement in cases when the Final Documents are not delivered timely. Please refer to the Purchase and Sale Agreement (Section 7.3) that outlines late delivery of Final Documents.

Good-Bye Letter

A Good-bye letter must be issued on each loan. It also must comply with applicable federal and state laws and regulations, including but not limited to, Real Estate Settlement Procedures Act and its implementing Regulation X.

The table below provides the Servicer-specific information to be included in the Good-bye letter.

Insurance Coverages & Requirements

Flood Insurance

Final evidence of flood insurance must meet the requirements set forth in Part II, Chapter 3 of the Fannie Mae Servicing Guide. If the property is in a flood zone, but flood insurance has been waived, the Mortgage Loan file must include documentation, which explains the basis of the waiver (FEMA Letter of Map Amendment or FEMA Letter of Map Revision).

Hazard Insurance

Evidence of hazard insurance must be forwarded in the form of a current policy or hazard insurance Binder along with a paid receipt. For purchase transactions, the Seller must provide evidence that the policy has been paid in full for the first year. For refinance transactions or transferring an existing policy, the Seller must provide a balance sufficient to pay the policy in full at time of renewal. The insurance policy must comply with the requirements for evidence of insurance set forth in Part II, Chapter 2 of the Fannie Mae Servicing Guide.

Optional Insurance

Optional insurance coverage such as mortgage life insurance is not transferable to the Servicer. If the borrower opted for optional insurance coverage offered by the Seller at time of origination, the Seller must make arrangements to bill the borrower directly for optional insurance coverage at or prior to time of Servicing transfer.

Mortgage Insurance

Private mortgage insurance is required in most instances where the LTV exceeds 80 percent unless otherwise required in the Fannie Mae Servicing Guide and/or Fannie Mae product description. The Seller must collect and pay the applicable premiums for private mortgage insurance on or before closing and provide evidence of such payment to the Servicer.

IRS 1098 Reporting Requirements

The Seller and the Servicer must comply with all IRS 1098 reporting requirements. The Seller and the Servicer should consult their tax advisors as necessary for guidance.

Late & Incorrect File Delivery to the Servicer

The Seller must comply with all documentation delivery requirements outlined in the Purchase and Sale Agreement. Failure to do so may result in:

- Suspension or termination of Seller's access to SET.
- Untimely set-up of the file. The Servicer could potentially claim non-ownership of the servicing of the loan for lack of a proper and accurate transfer. The transfer of servicing of the loan takes place on the date Fannie Mae purchases the loan.
- **The Seller may incur fees assessed by the Servicer as per the Purchase and Sale Agreement for late delivery and/or incorrect loan file and wire reconciliation.**
- **The Seller may also incur fees and other penalties as per the Guides for each late delivery and/or incorrect loan file and wire reconciliation.**

Loan Sale Notification Letters

The Seller must provide written notification of the transfer of the Servicing Rights to any collection authority entitled to receive escrow/impound payments associated with the Mortgage Loan. Such notification must instruct the collection authority to deliver all future notices, tax bills, insurance statements and related correspondence to the new Servicer and must provide the applicable contact information and address shown below:

Net Funding

Pursuant to SET, Fannie Mae will facilitate the sale of the servicing rights for a mortgage loan which is purchased by Fannie Mae through PE-Whole Loan by calculating the net funding SRP as described in the PE-Whole Loan Job Aids which shall take into account price adjustments and fees agreed to by the Seller and the Servicer and the amount of escrow funds applicable to the Mortgage Loan as entered by the Seller in PE-Whole Loan.

Adjustments arising from settlement errors after the Purchase Date are not processed in SET. Please see the section titled “Delivery/Settlement Errors & the Reconciliation Process” for information on how to make these corrections.

Please reference C2-1.2-04 in the Fannie Mae Selling Guide, for further information on net funding.

Notice Address for Servicer

The address for all notices under the Purchase and Sale Agreement for the applicable Servicer is as set forth below:

CMC Funding
CMC Funding, Inc. 814 A1A North, Ste. 303 Ponte Vedra, FL 32082

Outstanding Documents/Critical Documents

When the servicing file is missing pertinent documents or information, the Servicer will notify the Seller of file deficiencies. **It is the Seller's responsibility to forward all outstanding documentation within 24 hours of receipt of a request from the Servicer or within the time identified by the Servicer.** Missing critical documents which are described on the SET Document Checklist interferes with the Servicer's ability to service the Mortgage Loan. Outstanding critical documents will delay the set-up of the servicing file and issuance of coupon booklets or billing statements to the borrower.

When forwarding any outstanding and/or critical documents, attach the documents to the **SET Document Checklist**.

SRP Reimbursement to the Servicer

Payoffs

The Mortgage Loans for which servicing rights have been sold through SET which are paid in full within 120 days of the Fannie Mae Purchase Date are subject to SRP recovery by the Servicer pursuant to the terms and conditions of the Purchase and Sale Agreement.

Repurchases

When the Seller is required by to repurchase a Mortgage Loan, the repurchase request will be sent directly to the Seller by the Servicer. Upon receipt of the repurchase request, the Seller must contact the Servicer's designated business area to make arrangements for repurchase (see chart below). The amounts due for a repurchase (including all or a portion, as applicable, of the SRP) are to be sent to the Servicer, as provided in the Purchase and Sale Agreement. The Servicer must then report the repurchase and remit the proceeds in accordance with the requirements set forth in the Fannie Mae Selling Guide. Once Fannie Mae has received the repurchase amount due from the Servicer, the Note will be released and returned to the Servicer. Upon

receipt of the original Note from Fannie Mae, the Servicer will process the necessary mortgage transfer documentation and return the original file along with its contents directly to the Seller.

Pursuant to the terms and conditions of the Purchase and Sale Agreement, the Servicer may charge the Seller and the Seller shall pay to the Servicer a repurchase fee for each loan that the Seller is required to repurchase.

Tax Service Fee

The tax service fee is charged by the Servicer to prepare the initial escrow analysis, whether or not the Mortgage Loan is escrowed. This fee is automatically netted from the Seller's total proceeds and is factored into the calculation of the net funding SRP in PE-Whole Loan.

Transaction Fee

The transaction fee is a fee due the Servicer for the initial costs associated with setting up the Mortgage Loan. This fee is automatically netted from the Seller's total proceeds and is factored into the calculation of the net funding SRP in PE-Whole Loan. This fee is subject to change without notice at each Servicer's discretion.

Servicer's Packaging Instructions

The packaging procedures inform the Sellers how to package the files at time of delivery to the Servicer for single loan deliveries. It is important to remember to clearly identify the loans as Fannie Mae SET loans in **bold** print on the outer file jacket. All boxes must be sent to the Servicer via overnight mail, express delivery (first delivery time).

Packaging Procedures When Delivering Single Loan Files

The outer file jacket of the servicing file must clearly note the file as a Fannie Mae SET loan (see section on Servicing File Delivery). This will flag the Servicer's receiving office on where to forward the loan for set up and prioritization.

The servicing files must have the following:

- A completed **SET Document Checklist** and the documents enclosed must follow the order of the **SET Document Checklist. (DETERMINE IF THE ORDER OF THE SET DOCUMENT CHECKLIST SHOULD BE ADJUSTED.)**
- A label noting the borrower's name and address.
- Include a Seller contact name and number for the Servicer on the **SET Document Checklist**.

Packaging Procedures When Delivering Multiple/Bulk Loans

The servicing files must be packaged as follows:

- In standard, 2 cubic foot boxes with lids.
- Boxes must not be packaged tightly. There should be at least two inches remaining in each box.
- Each box must contain an inventory list of the servicing files.
- The box number must be written on the bottom left-hand corner on the contents side of the box.
- Each box number must be written on the bottom left-hand of the contents list.
