

Desktop Underwriter® (DU®) Validation Service

Integration and Testing

Updated April 9, 2020

Overview of DU Validation Service

Fannie Mae's DU validation service is designed to give lenders enhanced loan origination controls, a more efficient mortgage origination process, and certainty around the borrower's income, asset, and employment information.

By leveraging automation, analytics, and third-party data sources, Fannie Mae is able to provide Day 1 Certainty® with representations and warranties relief for validated components.

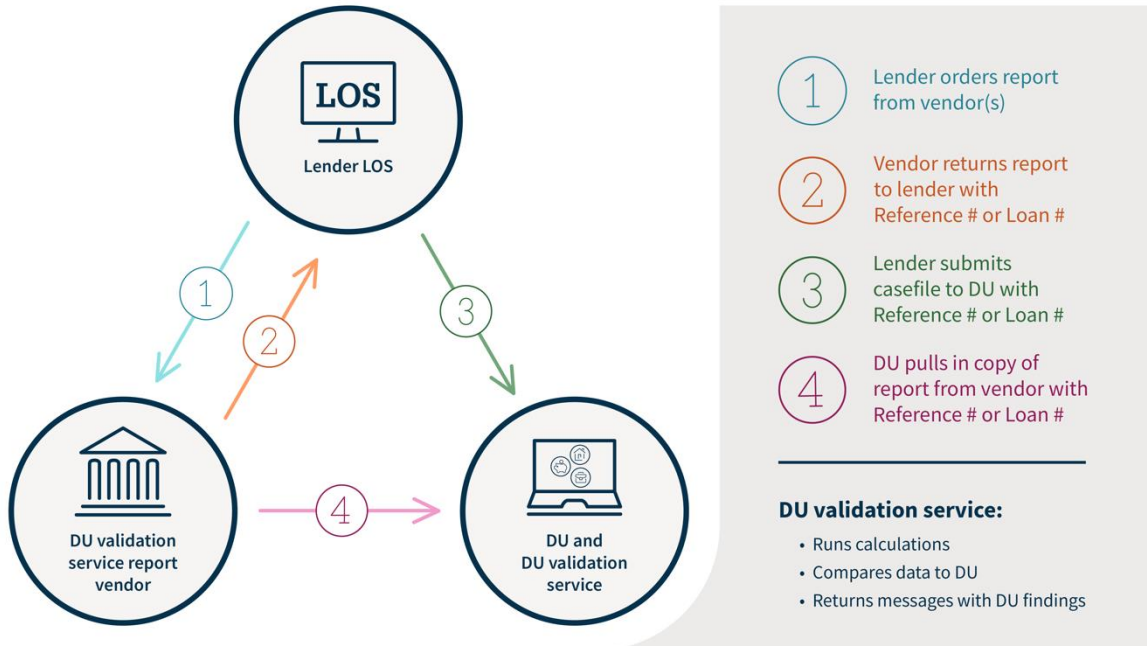

When a lender opts in to use the DU validation service, and the lender obtains a verification report from a report supplier or authorized report distributor, DU will use the data on the verification report to validate information entered by the lender into DU and return results in specific DU messages.

To take advantage of this service, Fannie Mae offers the following guidance:

- Review the following documents and training:
 - [DU Release Notes](#)
 - **DU Validation Service Reference Guide** located in the “Additional Resources” section of the [DU Validation Service webpage](#)
 - *DU / DO / Fannie Mae Connect™ credentials are needed to access this document.*
 - [DU Validation Service FAQs.](#)
 - [DU Validation Service Learning Center](#)
- Engage with vendors and execute their business contracts.
- Determine integration and testing effort for Loan Origination System (LOS).
- Complete your internal process assessments.
- Develop job aids and documentation for users.
- Complete vendor activation process.
- Submit DU Trait Activation Form for testing.
- Notify TSP Account Manager or Account Team when you are ready for production.

High-level workflow of the DU validation service process

- After obtaining borrower consent, the lender orders a verification report from a DU validation service vendor. View the [Current Data Vendor](#) list.
- The lender reviews the verification report and addresses any discrepancies with the borrower.
- Lender enters information into DU and submits.
- DU obtains a duplicate copy of the verification report from the vendor using loan number or reference number.
- DU performs its own income and asset calculations to arrive at a value that is compared to DU. Employment status can also be validated.
- DU returns specific messages related to the loan components that have been submitted for validation.
 - Income is validated on a per-borrower and per-income type basis.
 - Assets are validated on a loan-level basis.
 - Employment is validated on a per-borrower and per-employer basis.
- Lender can take advantage of streamlined processing and underwriting for components that have been validated.
- The lender closes the loan and delivers to Fannie Mae.
- As long as lender meets all DU validation service requirements described in the *Selling Guide* and complies with applicable DU messages, lender receives Day 1 Certainty for validated components.

NOTE: For The Work Number from Equifax and the Equifax 4506-T Tax Transcript Service, the third-party verification report reference number is the lender loan number. It is already captured in DU so no further fields are needed.

Prior to activation, lenders should ensure their integrated system(s) are prepared to support the DU validation service. Points to consider:

- Determine a method to order and receive vendor report(s) – either directly from the vendor using their tools or facilitated through the LOS.
- The third-party verification report reference number (or loan number) must be input into DU for DU to receive the report information and issue DU validation messages.
 - Most lenders already input a loan number into DU, so in the case of The Work Number and the Equifax 4506-T Tax Transcript Service, no further information is needed in DU.
- DU issues new messages for validation. Lenders may desire to incorporate the new messages into workflow.

Validation Service Integration

Summary

- A technology build is not needed to implement use of The Work Number from Equifax. As long as the Lender Loan Number is provided to The Work Number when the order is placed, DU will be able to pull in the income information.
- FormFree and DataVerify customers with proprietary platforms:
 - Support new field values for service provider name and Report ID and/or Reissue Key.
 - Pass the new field values to DU.
 - For the v3.2 file format, DU will leverage the ADS segment.
 - For the MISMO 2.3.1 format, a new sub-Element, VERIFICATION, will be created within the ADDITIONAL CASE_DATA Element.
 - Ordering the service within the Loan Origination System (LOS) provides additional process efficiencies.
 - Use of DU validation service does not change the Loan Delivery (LD) process. A Special Feature Code (SFC) is not needed for LD.

Data Mapping

Below is detailed mapping information to support the DU validation service.

1003 v3.2

For the v3.2 file format, DU will leverage the ADS segment. The service provider name will be supported in the ADS-020. The reference number will be supported in the ADS-030. DU will support multiple instances of the ADS segment so multiple provider reports can be included as part of a single underwriting request.

Field #	Field Name	Field Value	Field Description
ADS-020	Service Provider Name	AdvancedData Avantus BankVOD Blend Chronos CoreLogic CreditInterlink*	Name of the income or asset verification data provider. Must equal one of the specified field values. <i>*also known as Partners Credit & Verification Solutions</i>

		CreditPlus DataVerify Finicity FinLocker FirstAmerican Formfree Informative MeridianLink NCS Plaid PointServ PrivateEyes** QuestSoft Sharper*** SharperLending (available 8/12/2017) Universal VeriTax Placeholder (see note at bottom of grid)	** also known as 4506-Transcripts.com *** Please note this value changed to SharperLending on 8/12/2017. Both values will be accepted until a future date to be determined (TBD).
Field #	Field Name	Field Value	Field Description
ADS-030	Service Provider Reference Number	Alpha-numeric text must be submitted in the following format: SSN(no dashes):Reference id(if this is a GUID, it needs to contain the dashes) <i>Examples by vendor:</i> AdvancedData: – SSN: DVS# Avantus – SSN:Report ID BankVOD – SSN:Order Number Blend – SSN:Reference Number Chronos – SSN:Tax File Number CoreLogic – SSN:Report ID CreditInterlink* – SSN:Report ID CreditPlus: - SSN: Reissue Key DataVerify – SSN:PIN Code Finicity – SSN:Report ID FinLocker – SSN:Report ID FirstAmerican – SSN:Reference Number Formfree – SSN:Report ID or Formfree – SSN:Reissue Key Informative – SSN:Order Number MeridianLink – SSN:Reissue Key NCS – SSN: Plaid – SSN:Audit Copy Token	Reference number of the income or asset verification data to be retrieved from the data provider specified in ADS-020. *also known as Partners Credit & Verification Solutions ** also known as 4506-Transcripts.com

	PointServ – SSN:FNMA Ref # PrivateEyes** – SSN:Reference # QuestSoft – SSN:FXID SharperLending – SSN:Reference Number Universal – SSN:Order # VeriTax – SSN:Report ID Placeholder – Reference number only (including dashes) <i>Be aware of field length of some of the vendor IDs are long. GUIDs are 36 characters in length.</i>	
--	--	--

NOTE: The Placeholder field can be used to override the Lender Loan Number field:

1. Where a new loan has been created for the borrower but the lender wishes to use the previously ordered The Work Number report,
2. Where the borrower has multiple open loans and the lender wishes to use just a single The Work Number report across those loans, or
3. Where a loan number has not yet been assigned.

In cases where a loan number was not yet assigned, the lender should enter the information located in the Tracking Number Field of the Equifax verification order into the Placeholder Field in DU.

MISMO AUS v2.3.1

For the MISMO 2.3.1 format, a new sub-Element, VERIFICATION, will be created within the ADDITIONAL CASE_DATA Element. This Element will contain a pair of attributes to support the service provider name and reference number. DU will support multiple instances of the VERIFICATION Element so multiple provider reports can be included as part of a single underwriting request.

Parent Element	Attribute Name	Attribute Value	Field Description
ADDITIONAL_CASE_DATA VERIFICATION	IncomeAssetVerificationType	AdvancedData Avantus BankVOD Blend Chronos CoreLogic CreditInterlink* CreditPlus DataVerify Finicity FinLocker FirstAmerican Formfree Informative MeridianLink NCS Plaid	Name of the income or asset verification data provider. Must equal one of the specified field values. <i>*also known as Partners Credit & Verification Solutions</i> <i>** also known as 4506-Transcripts.com</i> <i>*** Please note this value changed to SharperLending on 8/12/2017. Both values will be accepted until a future date to be determined (TBD).</i>

Parent Element	Attribute Name	Attribute Value	Field Description
		PointServ PrivateEyes** QuestSoft Sharper*** <i>SharperLending (available 8/12/2017)</i> Universal VeriTax <i>Placeholder (see note at bottom of grid)</i>	
ADDITIONAL_CASE_DATA VERIFICATION	IncomeAssetVerificationIdentifier	<p>Alpha-numeric text must be submitted in the following format: SSN(no dashes):Reference id(if this is a GUID, it needs to contain the dashes) <i>Examples by vendor:</i> AdvancedData: – SSN:DVS# Avantus – SSN:Report ID BankVOD – SSN:Order Number Blend – SSN:Blend Reference Number Chronos – SSN:Tax File Number CoreLogic – SSN:Report ID CreditInterlink* – SSN:Report ID CreditPlus – SSN:Reissue Key DataVerify – SSN:PIN Code Finicity – SSN:Report ID FinLocker – SSN:Report ID FirstAmerican – SSN:Reference Number Formfree – SSN:Report ID or Formfree – SSN:Reissue Key Informative – SSN:Order Number MeridianLink – SSN:Reissue Key NCS – SSN: Plaid – SSN:Audit Copy Token PointServ – SSN:FNMA Ref # PrivateEyes** – SSN:Reference # QuestSoft – SSN:FXID SharperLending – SSN:Reference Number Universal – SSN:Order # VeriTax – SSN: Report ID Placeholder – Reference number only (including dashes) <i>Be aware of field length of some of the vendor IDs are long. GUIDs are 36 characters in length.</i></p>	<p>Reference number of the income or asset verification data to be retrieved from the data provider specified in ADS-020.</p> <p><i>*also known as Partners Credit & Verification Solutions</i></p> <p><i>** also known as 4506-Transcripts.com</i></p>

NOTE: The Placeholder field can be used to override the Lender Loan Number field:

1. Where a new loan has been created for the borrower but the lender wishes to use the previously ordered The Work Number report,
2. Where the borrower has multiple open loans and the lender wishes to use just a single The Work Number report across those loans, or
3. Where a loan number has not yet been assigned.

In cases where a loan number was not yet assigned, the lender should enter the information located in the Tracking Number Field of the Equifax verification order into the Placeholder Field in DU.

MISMO AUS v3.4

For the MISMO 3.4 format, the DU:UNDERWRITING_VERIFICATION container will contain three elements to support the service provider name, reference number, and report type. DU will support multiple instances of the DU:UNDERWRITING_VERIFICATION container so multiple provider reports can be included as part of a single underwriting request. An ArcRole must be used to associate the corresponding verification with the borrower. Please see the [DU Specification MISMO V.3.4](#) for more information on ArcRoles.

Parent Container	Data Point Name	Data Point Value	Data Point Definition

Parent Container	Data Point Name	Data Point Value	Data Point Definition
DU:UNDERWRITING_VERIFICATION	DU:VerificationReportType	VOD VOE TAXTRANSCRIPT	Type of report used to verify a borrower's disclosed income, employment, and/or assets

NOTE: *The Placeholder field can be used to override the Lender Loan Number field:*

- 1. Where a new loan has been created for the borrower, but the lender wishes to use the previously ordered The Work Number report,*
- 2. Where the borrower has multiple open loans and the lender wishes to use just a single The Work Number report across those loans, or*
- 3. Where a loan number has not yet been assigned.*

In cases where a loan number was not yet assigned, the lender should enter the information located in the Tracking Number Field of the Equifax verification order into the Placeholder Field in DU.

Report Types Supported by Vendors

The following table provides the list of Report Types supported by each of the vendors.

Vendor	Report Types Supported
4506-Transcripts.com	TAXTRANSCRIPT
Advanced Data	TAXTRANSCRIPT VOE
Avantus - Credit Systems Design	TAXTRANSCRIPT
BankVOD	TAXTRANSCRIPT
Blend	VOD
Covius	TAXTRANSCRIPT
CoreLogic	TAXTRANSCRIPT VOE
Credit Plus	VOE
DataVerify	TAXTRANSCRIPT VOE
Finicity	VOD
FinLocker	VOD
First American Mortgage Solutions	TAXTRANSCRIPT
FormFree	VOD
Informative Research	TAXTRANSCRIPT
MeridianLink	TAXTRANSCRIPT
NCS/National Credit-reporting System	TAXTRANSCRIPT
Partners Credit	TAXTRANSCRIPT VOE
Plaid	VOD
PointServ	TAXTRANSCRIPT VOD
QuestSoft Corporation	TAXTRANSCRIPT
SharperLending	TAXTRANSCRIPT
Universal Credit Services	TAXTRANSCRIPT
Veri-Tax	TAXTRANSCRIPT VOE
The Work Number	VOE
Equifax	TAXTRANSCRIPT

Helpful Tips

- For all vendors (except The Work Number / Equifax), once a lender provides the reference number in their loan application file and DU retrieves the report from the vendor:
 - DU will not make any subsequent calls to the vendor when the loan is resubmitted to DU.
 - If a lender needs a corrected report, the vendor should assign a new reference number that the lender subsequently updates in their DU loan file.
 - This will allow the DU validation service to retrieve the revised report from the vendor.
- The ADS-020 field is case sensitive (e.g., “Formfree” not “FormFree”).
- Be aware of field length as some of the vendor IDs are quite long. GUIDs are 36 characters in length.

Desktop Underwriter Web User Interface

Lenders who do not have direct system integration can manually enter the third-party verification report Reference ID in DU. DU has an Income & Asset Validation section in the Additional Data section of the online loan application. In this section:

- Lenders will choose the Third-Party Data Provider Name and enter the corresponding reference number associated with the report obtained from the provider.
- Up to four reference numbers may be entered for each Third-Party Data Provider Name selected.
- This will give lenders the ability to enter the provider and reference number information for each borrower on the loan application. Customers must enter the reference number in the following format:

Non-ULAD: SSN(no dashes):Reference ID

(if this is a GUID, it needs to contain the dashes)

Examples by vendor:

AdvancedData – SSN:DVS#

Avantus – SSN:Report ID

BankVOD – SSN:Order Number

Blend – SSN:Reference Number

CoreLogic – SSN:Report ID

Covius – SSN:Tax File Number

Credit Plus – SSN:Reissue Key

DU Validation Service Testing

Integrated technology solution providers and customers with proprietary loan origination systems may use the DU Integration Environment for testing. TSPs and proprietary customers should work with either the TSP Account Manager or the account teams to get their Institution IDs set up for testing.

Income & Employment

Advanced Data® VOE/VOI

The following test cases are available in the Advanced Data test and production environments. The reports have already been created, and only need to be referenced in DU's integration or DU's production environment by DVS #.

Production Test Cases – VOI/VOE

Name	SSN	DVS #	Observation
Jess Sea	999-00-1147	PJTGJQ47	Validated Base Employment Income \$450.00
Ann Sea	999-00-9066	NNDKXN66	Validated Commission Only \$300.00
Homer Loanseeker	999-60-1111	LAEKVG11	Validated Base Employment Income \$3,073.20

Integration Test Cases – VOI/VOE

Name	SSN	DVS #	Observation
Jess Sea	999-00-1147	DUTGTN47	Validated Base Employment Income \$450.00
Ann Sea	999-00-9066	QCEGXM66	Validated Commission Only \$300.00
Homer Loanseeker	999-60-1111	KUZEVU11	Validated Base Employment Income \$3,073.20

CoreLogic® Verification of Employment and Income (VOE/I)

The following test cases are available in the CoreLogic test and production environments. The reports have already been created, and only need to be referenced in DU's integration or DU's production environment by Report ID.

Production Test Cases – VOI/VOE

Name	SSN	Report ID	Employer	Observation
Homer Loanseeker	999-60-1111	F8CfegewDp	CLGX ePrise One	Validates base income \$5,000
Ann Sea	999-00-9066	bDwSxs7DYT	CLGX ePrise One	Validates commission income \$6,300
Jess Sea	999-00-1147	bDwSxs7DYT	CLGX ePrise One	Validates base income \$6,500
Suzi Builder	999-60-6666	k1qd-m2ub-34lf-r7c0-VOE-1	CLGX ePrise One and CLGX ePrise USA	Validates base income of \$620 for CLGX ePrise One and base income of \$5000 for CLGX ePrise USA

Integration Test Cases – VOI/VOE

Name	SSN	DVS #	Employer	Observation
Homer Loanseeker	999-60-1111	955e-q8dx-ntkw-wyt8-VOE-1	CLGX ePrise One	Validates base income \$5,000
Ann Sea	999-00-9066	ie7n-hj0z-zrtu-eqa2-VOE-2	CLGX ePrise One	Validates commission income \$6,300
Jess Sea	999-00-1147	ie7n-hj0z-zrtu-eqa2-VOE-1	CLGX ePrise One	Validates base income \$6,500

Credit Plus VOE/VOI

The following test cases are available in the Credit Plus’s test and production environments. The reports have already been created, and only need to be referenced in DU’s integration or DU’s production environment by Reissue Key.

Production Test Cases – VOI/VOE

Name	SSN	Reissue Key	Observation
Jess Sea	999-00-1147	AVSDvsIncome	Base Employment Income \$500 have been validated using asset account information.
Homer Loanseeker	999-60-1111	AVSDvsIncome	Base Employment Income \$3,073.20 have been validated using asset account information.

Integration Test Cases – VOI/VOE

Name	SSN	Reissue Key	Observation
Jess Sea	999-00-1147	AVSDvsIncome	Base Employment Income \$500 have been validated using asset account information.
Homer Loanseeker	999-60-1111	AVSDvsIncome	Base Employment Income \$3,073.20 have been validated using asset account information.

DataVerify Verification of Employment and Income

The following test cases are available in the DataVerify test and production environments. The reports have already been created, and only need to be referenced in DU’s integration or DU’s production environment by PIN Code.

Production Test Cases – VOI/VOE

Name	SSN	DV Pin Code	Employer	Observation
Homer Loanseeker	999-60-1111	3GQSM19O00	Enterprise One	Validates base income \$3,072.00
Jess Sea	999-00-1147	7BOH8BY0IT	Enterprise One	Validates base income of \$8,212.50
Ann Sea	999-00-9066	6L0NV9JSMT	Enterprise One	Validates base income of \$2,916.67
Suzi Builder	999-60-6666	VSGS8P2HFX	Enterprise One	Validates base income of \$5,250.00

Integration Test Cases – VOI/VOE

Name	SSN	DVPinCode	Employer	Observation
Homer Loanseeker	999-60-1111	SHIDKNMMCG	Enterprise One	Base income of \$3,073
Suzi Builder	999-60-6666	Z7T7AY3HM7	Enterprise One	Base income \$5,000; bonus income \$250
Jess Sea	999-00-1147	OPCURHXSFV	Enterprise One	Base income of \$5,000
Ann Sea	999-00-9066	8TJKYMPQSH	Enterprise One	Base income of \$1,916.67

NOTE: When using DataVerify, lender will receive **one** PIN Code for both VOE/VOI **and** any 4506-T Transcript information ordered for a borrower.

Partners Credit & Verification Solutions Verification of Employment Report (Also known as Credit Interlink)

The following test cases are available in the Partners Credit & Verification Solutions’ test and production environments. The reports have already been created, and only need to be referenced in DU’s integration or DU’s production environment by Report ID.

Production Test Cases

Name	SSN	Report ID	Observation
Homer Loanseeker	999-60-1111	LN001	Validated Base Employment Income \$5000.00
Jess Sea	999-00-1147	LN002	Validated Base Employment Income \$6000.00

Integration Test Cases

Name	SSN	Report ID	Observation
Homer Loanseeker	999-60-1111	LN001	Validated Base Employment Income \$5000.00
Jess Sea	999-00-1147	LN002	Validated Base Employment Income \$6000.00

The Work Number from Equifax

The following test cases are available in The Work Number’s test environment. A lender can “order” The Work Number report for these borrowers, then submit to DU’s integration environment using the lender loan number they used when The Work Number report was ordered.

NOTE: There is a delay between when a lender receives The Work Number report and when the report is available in DU.

Name	SSN	Observation
Homer Loanseeker	999-60-1111	1 active employment, Base/Commission
Loco Motion	999-47-8801	1 active employment, Base/Bonus/Commission

Name	SSN	Observation
Jess Sea	999-00-1147	Has one employment (On Leave status)
Ann Sea	999-00-9066	No employment record
Suzi Builder	999-60-6666	2 active employers, Base/Overtime

Test Environment for website ordering: <http://test.ct2.theworknumber.com/Verifiers/>

Test Environments for Direct Integration:

- The Work Number (legacy clients): https://test.ofx2.talx.com/twnofxct2/xmlb2b_router.dll
- The Work Number (all other clients): https://test.ofx4.talx.com/verifierinterimct2/xmlb2b_router.dll

Employment

Below are the employers associated with each of The Work Number test cases.

- Only active employers for the test borrowers are listed, lenders may see others in the reports.
- The Work Number allows the user to select all employment (active and inactive) or only active employment for a borrower.
- The user may select a verification of income (VOI) or verification of employment (VOE) report from The Work Number. DU will validate employment using either report.
- DU will validate *only* employers entered into DU for the borrower. If a borrower has two active employers on The Work Number report, but only one of those is entered into DU, DU will validate only the employer entered and use only income associated with that employer to validate the borrower's base, bonus, overtime, or commission.

Name	SSN	Employment
Homer Loanseeker	999-60-1111	Enterprise One
Loco Motion	999-47-8801	Enterprise One
Jess Sea	999-00-1147	Enterprise One
Suzi Builder	999-60-6666	Enterprise One Enterprise USA

The Work Number Test Environment (legacy clients): https://test.ofx2.talx.com/twnofxct2/xmlb2b_router.dll

The Work Number Test Environment (all other clients): https://test.ofx4.talx.com/verifierinterimct2/xmlb2b_router.dll

Veri-Tax Verification of Employment and Income DU Reference Number

The following test cases are available in the Veri-Tax test and production environments. The reports have already been created, and only need to be referenced in DU's integration or DU's production environment by Report ID.

Production Test Cases – VOI/VOE

Name	SSN	Report ID	Employer	Observation

Equifax® 4506-T Tax Transcript

The following test cases are available in The Work Number's test environment. To test:

1. "Order" the tax transcripts for these borrowers

- Submit to DU's integration environment using the lender loan number they used when the tax transcript was ordered.

Name	SSN	Observation
Jess Sea Ann Sea	999-00-1147 999-00-9066	Has two years of tax transcripts (2014, 2015), will validate commission income > 25% if The Work Number report is also ordered for these borrowers

Test Environment for Integration website ordering: <http://test.ct2.theworknumber.com/Verifiers/>

Test Environments for Direct Integration:

- The Work Number Test Environment (legacy clients): https://test.ofx2.talx.com/twnofxct2/xmlb2b_router.dll
- The Work Number Test Environment (all other clients): https://test.ofx4.talx.com/verifierinterimct2/xmlb2b_router.dll

Any PDF can be uploaded for the IRS authorization form. These test orders can take up to 20 minutes to process. A lender will receive an email when the order is complete.
