Introduction

What is the UCDP User Guide for Fannie Mae Messaging?

This guide is a supplement to the Uniform Collateral Data Portal® (UCDP®) General User Guide and describes the screens and reports that are available **only** to those who electronically submit appraisal data files to Fannie Mae through the UCDP. Many of the screens and reports described are only available to users registered with Fannie Mae.

See the UCDP General User Guide for more information about UCDP at the following link:
<https://www.uniformdataportal.com/ucdp/PortalContent/UCDPGeneralUserGuide.pdf>.

Who should read this manual?

The UCDP User Guide for Fannie Mae Messaging is intended for loan officers, underwriters, appraisal management companies, and others who submit appraisal data files to Fannie Mae, resolve issues with Fannie Mae appraisal data file submissions, and obtain Fannie Mae reports from UCDP.

What's in this manual?

This manual contains information in the following sections about the screens and reports unique to Fannie Mae appraisal data file submissions and results:

- Section 1: View/Edit Pages for Appraisal Submissions describes the additional Fannie Mae tabs in the Appraisal Hard Stops and Appraisal Findings sections on this page.
- Section 2: Viewing and Editing Appraisal Information explains how to check the submission status; edit certain information and/or resubmit appraisal data files (as needed); and request, track, and process override requests on Fannie Mae submissions.
- Section 3: Submission Summary Report explains Fannie Mae additions to this report including Fannie Mae specific messaging.
- Appendices:
 - List of Fannie Mae Hard Stops
 - List of Fannie Mae Findings

1. View/Edit Pages for Appraisal Submissions

NOTE: *The Fannie Mae changes described in this section are in addition to information contained in “Section 2.4-View/Edit Pages for Appraisal Submissions” in the UCDP General User Guide.*

View/Edit pages are used to review submission data, submit a request for an override, and resubmit a corrected appraisal data file and/or add additional appraisal data files.

The View/Edit page shown in Figure 1.0.1 has three sections:

1. Submission Information
2. Appraisal Information
3. Submission History

UCDP users who submit appraisal data files to Fannie Mae see additional tabs labeled “Fannie Mae” in the Appraisal Hard Stops and Appraisal Findings sections as shown in Figure 1.0.1 that non- Fannie Mae users do not see. The Submission Information and Submission History subsections remain unchanged and contain information pertinent to both GSEs.

Figure 1.0.1 View/Edit Page with Fannie Mae Tabs

The screenshot displays the UCDP View/Edit page, divided into three main sections:

- Section 1 – Submission Information:** Located at the top, it contains a table with appraisal details. A red box highlights this section, with an arrow pointing to the 'Appraisal Status' column.
- Section 2 – Appraisal Information (1, 2, and/or 3):** This middle section contains detailed appraisal data. A red box highlights it, with arrows pointing to the 'Fannie Mae Hard Stops' and 'Fannie Mae Findings' subsections.
- Section 3 – History of the Submission:** Located at the bottom, it shows a log of submission events. A red box highlights this section.

Fannie Mae may return one or more hard stops that require a manual override(s) to be submitted to UCDP to obtain a Successful UCDP submission status. The Fannie Mae hard stops are listed in Appendix A. More information about resolving hard stops is contained in Section 4.3.3 of the UCDP General User Guide

Table 1.0.2 lists the information in the Appraisal Hard Stops and Appraisal Findings subsections of the View/Edit page, including information that is available only to Fannie Mae registered users.

Table 1.0.2 Appraisal Information Subsections

Subsection	Description
Appraisal Hard Stops – UCDP Tab	Lists hard stop errors that are common to both GSEs for the submitted appraisal data file. Hard stop errors include warnings that are automatically overridden, as well as hard stops that you must either manually override or correct with a new appraisal in order to receive a successful status. Each appraisal data file has a separate hard stop section.
Appraisal Hard Stops – Fannie Mae Tab	Lists only Fannie Mae-generated hard stops and is only displayed if the appraisal data file is submitted to Fannie Mae by a Fannie Mae-approved lender/lender agent. Each appraisal data file has a separate hard stop section.
Appraisal Findings – UAD Compliance Tab	Lists all UAD compliance check messages. These are all common to both GSEs. Each appraisal file has a separate UAD Compliance check findings section.
Appraisal Findings – Fannie Mae Tab	Lists only Fannie Mae findings information and is only displayed if the appraisal data file is submitted to Fannie Mae by Fannie Mae-approved lender/lender agents. The findings are listed by Message ID and refer to the property affected. The severity is either warning, overridable, or fatal. Fannie Mae may return warning and/or overridable messages. Each appraisal file has a separate findings section.

In the event that a technical issue occurs, you will receive the following message:

“An issue has occurred with the Fannie Mae submission; the appraisal will automatically process when it is resolved.”

To determine when the issue has been resolved, you will need to recheck your status until the submission changes from “In Progress” to “Not Successful” or “Successful.”

The overall Fannie Mae Appraisal Status shown in Figure 1.0.1 is based on the combined UCDP hard stops, UAD compliance checks, and Fannie Mae hard stops. If the Fannie Mae hard stops include at least one message that has either a manually overridable or a non-overridable hard stop, then the Appraisal Status will be “Not Successful.” Currently, the Fannie Mae hard stops are warning and/or manually overridable hard stops (the Fannie Mae hard stops do not currently include non-overridable hard stops).

NOTE: Results from the UAD compliance check may result in warning messages that do not affect the successful status of the submission, or fatal errors that result in a “Not Successful” appraisal status. These error messages occur if the data is incomplete or does not conform to the standards defined in the Fannie Mae and Freddie Mac UAD requirements. Details on each UAD error are provided in the error message. Some of the UAD Compliance edits are fatal and result in a “Not Successful” appraisal status unless a corrected appraisal file with the required data is resubmitted to the UCDP.

NOTE: The Fannie Mae messages may include manually overridable Hard Stops that result in a “Not Successful” Fannie Mae appraisal status. Lenders will be required to review the message(s) to verify if the information is correct as submitted or if a new or corrected appraisal is required. If the information is verified as correct and it is determined that there is no impact to loan eligibility, the lender may request a manual override and provide a reason code to change the submission status to a “Successful” status in UCDP.

2. Viewing and Editing Appraisal Information

NOTE: The Fannie Mae changes described in this section are in addition to the information contained in “Section 4- Viewing and Editing Appraisal Information” in the UCDP General User Guide.

Use the View/Edit page to resubmit appraisal data files or request, track, and process override requests. It is important to note that you cannot edit appraisal data within UCDP. You must submit an updated appraisal data file to make any corrections within UCDP.

To access the Appraisal View/Edit page:

1. Click the Doc File ID in the Upload Confirmation Report, or
2. Click either the Doc File ID or Edit link on the Search Results page.

2.1 Appraisal Hard Stops

The Appraisal Hard Stops subsection shown in Figure 2.1.1 displays any UCDP and Fannie Mae hard stops that may have occurred, details of the hard stops, comments, and the user ID associated with each override request and override decision under their respective tabs. The subsection also indicates whether an override was manual or automatic when it was submitted, and the result of the override.

When a hard stop cannot be overridden, use the link below the hard stop indicator prompting you to submit a new appraisal data file with the message, “You may upload a new or corrected file using File Operations above.” This is the only way a non-overridable hard stop can be removed. A user can request overrides or submit a corrected appraisal or other needed information for any submission from any related business unit or child business unit.

If a hard stop can be overridden, submit an override request by following these steps:

1. Select a reason for the override from the dropdown. If necessary, you can enter additional information in the comment box. If you don't see the reason for the override in the dropdown, select “Other” and enter the reason for the override request in the Comment box.
2. Click Submit.

If the override is accepted and all other hard stops have been resolved, the submission status changes from “Not Successful” to “Successful” in the Submission Information (Section 1) of the page.

NOTE: Fannie Mae hard stop codes include FNM0000 and, as of January 26, 2015, 21 manually overridable hard stop codes. The FNM0000 hard stop is an indicator that there are one or more Fannie Mae findings messages. If FNM0000 fires, the user should review the messages in the Fannie Mae findings tab for additional details. If one or more of the manually overridable hard stop codes fire, the Fannie Mae appraisal status will be “Not Successful.” Lenders will be required to review the message(s) to verify if the information is correct as submitted or if a new or corrected appraisal is required. If the information is verified as correct and it is determined that there is no impact to loan eligibility, the lender may request a manual override and provide a reason code to change the submission status to a “Successful” status in UCDP. For more details on Fannie Mae hard stops, refer to Appendix A.

2.2 Appraisal Findings (Appraisal 1, 2 and/or 3)

The Appraisal Findings subsection shown in Figure 2.2.1 includes both UAD compliance and Fannie Mae findings under their respective tabs. The Fannie Mae findings section will also include Collateral Underwriter® (CUTM) risk score, flags and messages with the Fannie Mae proprietary messages. CU is a proprietary appraisal risk assessment application developed by Fannie Mae to support proactive management of appraisal quality. For more information on CU, review the [Collateral Underwriter web page](#).

From the Appraisal Findings page, you can print the findings information or download the information to a Microsoft Excel spreadsheet.

- To print the information, click Print.
- To download the information, click Download to Excel.

Submission Summary Report

NOTE: *The Fannie Mae changes described in this section are in addition to information contained in the “Submission Summary Report” section in the UCDP General User Guide.*

The Submission Summary Report displays information about a specific Doc File ID including its related appraisal data files.

The Fannie Mae Submission Summary Report is included in Figure 3.1. This PDF file is displayed in the UCDP portal when you click on the SSR icon on the Search page or when you click Submission Summary Report under the Submission Reports menu item.

The Fannie Mae Submission Summary Report contains three sections:

1. UCDP Basic Edit Checks
2. UAD Compliance Findings
3. Fannie Mae Proprietary Edit Findings (this section includes the CU risk score, flags and messages)

The report includes the most recent submission information for each document (Appraisal 1, Appraisal 2, or Appraisal 3). The report includes the information shown in Table 3.1 and is sorted by severity in the following order: Fatal, Overridable, Warning.

Table 3.1 Information contained in the Submission Summary Report

Section	Description
UCDP Basic Edit Checks	These are the same for both Fannie Mae and Freddie Mac.
UAD Compliance Findings	These are messages generated during a UAD compliance check that contain information about data format and completeness issues. These are the same for both Fannie Mae and Freddie Mac.
Fannie Mae Proprietary Edit Findings	These findings are specific to Fannie Mae and are <i>only</i> viewable to those who submit appraisal data files to Fannie Mae.

FNM0399	A loan with an appraisal with this Document File ID has already been delivered to Fannie Mae. Fannie Mae may not accept this appraisal on a new loan at Loan Delivery. Ensure that the appraisal report has been uploaded correctly to Uniform Collateral Data Portal (UCDP) and verify that the correct Document File ID has been entered in the Loan Delivery system.	Manually Overridable	All Forms

NOTE: Any revisions and/or additions to Fannie Mae hard stops will be communicated to UCDP users prior to implementation.

NOTE: There are gaps in the numbering of the Message IDs in the above table. This is intentional.

Appendix B: List of Fannie Mae Findings

The following table lists Fannie Mae findings that can be generated as part of an appraisal data submission.

Message ID	Message Text	Severity	Applicable Forms
FNM0079	The appraisal's effective date is either a future date or greater than 12 months old. Verify that the appraiser has reported the correct effective date.	Warning	1004/2055/ 1073/1075
FNM0081	The expiration date of the appraiser's certification or license is before the effective date of the appraisal. Verify that the appraiser's license was not expired as of the effective date of the appraisal.	Warning	1004/2055/ 1073/1075
FNM0082	The expiration date of the supervisory appraiser's certification or license is before the effective date of the appraisal. Verify that the supervisory appraiser's license was not expired as of the effective date of the appraisal.	Warning	1004/2055/ 1073/1075
FNM0083	The "Did not analyze the contract of sale" box is checked in the Contract section. Ensure that the appraiser has analyzed the contract and reported the results of his or her research correctly.	Overridable as of 1/26/2015	1004/2055/ 1073/1075
