Q2 2025 <b>**UPDATED**</b>	MBS Enhancements	Please note the date has moved from Q1 2025 to Q2 2025.  Loan Delivery will introduce enhancements that provide additional transparency in the MBS loan delivery process and a self-service model to handle exceptions real-time as they occur. These updates relate to the exceptions which occur post-submission and may have previously required manual resolution with Fannie Mae’s Acquisitions Operations team.  Lenders will be able to cancel the request for certification on MBS loans after submission to bring the loan back to a Draft/Unsubmitted status for editing. No changes are required to current processes; we are giving lenders an additional option to correct data on a submitted MBS loan. Lenders may continue to delete the loan or the pool when data corrections are required.  There are no changes to the import and loan/pool submission process in Loan Delivery. More details, including a job aid, will be provided as we approach the rollout date.
