

# Cash Remittance System Release Notes

March 20, 2025

Effective **March 22, 2025**, the Cash Remittance System™ (CRS™) will be updated to require users to validate the draft amount before submission.

## ***Draft Request Amount Confirmation***

Servicers that enter draft transactions directly into CRS will now have to re-enter the amount of the draft request as part of the transaction confirmation, prior to submission of the request. This change does not apply for transactions submitted through the Import function. Once a draft request is entered, a pop-up screen will display the transaction details except the dollar amount. Users will be required to input the dollar amount to confirm the transaction. Entering the transaction amount on the confirmation screen will minimize errors and enhance accuracy.

## ***For More Information***

Additional CRS information and resources for Servicers can be found on the [CRS page](#). For questions about this release, please contact your Fannie Mae Relationship Manager.
