FTP Release 6.0 - Release Notes

File Transfer Portal application helps to quickly move data between external entities and Fannie Mae applications. This release includes many technical improvements that will make the application more robust and efficient but should be relatively transparent to users. There is no upstream/downstream impact with interfacing applications and will not impact the Synchrony Service. Only non-functional requirements are planned.

Fannie Mae will implement FTP Release 6.0 on **Saturday June 15, 2019**.

During implementation, FTP will be unavailable from 6:00 AM EST to 2:00 PM EST and all work flows including SMDU and HSSN will be impacted.

Release Summary:

Business Functionality changes/updates:

None
