

Loan Delivery Alignment with Uniform Appraisal Dataset (UAD) 3.6 Job Aid

Purpose and Guidelines

The purpose of this job aid is to provide additional information on data fields required in Loan Delivery when a loan is originated with the new appraisal MISMO 3.6 format. Starting September 8, 2025, lenders who have been approved for the UAD 3.6 Limited Production period, and later when UAD 3.6 is in broad production beginning January 26, 2026, all lenders can begin submitting appraisals in the UAD 3.6 format to the Uniform Collateral Data Portal (UCDP) Reference the [UAD and Forms Redesign Timeline](#) for additional details.

This job aid highlights the delivery data changes from an appraisal completed in UAD 2.6 vs UAD 3.6. The tables within this job aid provide a quick reference to the allowable values for the various appraisal methods corresponding to the fields that are required in Loan Delivery.

NOTE: *This job aid is a guide only. ULDD Specification (Appendix D) implementation notes should be followed for Loan Delivery. The UAD specification should be followed for UAD.*

How to use this job aid:

The job aid is broken out to show how to complete the appraisal related information in two sections of the Loan Delivery details tab – Appraisal Information and Project Information.

Appraisal Information

Review this section to see how the ULDD data can be mapped to the appraisal information section along with information on changes resulting from the new UAD 3.6 including:

- Allowable values for single construction method
- Allowable values and examples with multiple construction methods
- Allowable values for appraisal method

Project Information

Review this section to see how the ULDD data can be mapped to the project information section along with information on changes resulting from the new UAD 3.6 including:

- Allowable values and example screenshots for project design type
- Allowable values for legal structure

Sort ID	Field Name in Loan Delivery	Details	Allowable Values	UAD 3.6 Impact?
83	Appraisal Amount	Enter the appraised value of the property, rounded to the nearest dollar. If no appraisal is required in association with a refinance transaction, indicate the amount of the original appraisal that is in the loan file. If Fannie Mae waived the requirement for an appraisal for a Desktop Underwriter® loan casefile, indicate the "sales price" submitted to Desktop Underwriter (for a purchase money transaction) or the lender's estimated value (for a refinance transaction).	9 Digits	No
82	Appraisal Document File ID	Enter the "Document File Identifier" from the Uniform Collateral Data Portal (UCDP). The lender obtains the "Document File Identifier" from UCDP and transmits it in the "Appraisal Identifier" field in Loan Delivery. This field associates the appraisal data transmitted by the lender to UCDP with the Loan Delivery record. As such, this field is conditional based on UCDP mandated requirements. UAD 3.6 appraisals begin with a first digit of 2 or higher.	10 Characters	Yes - UAD 3.6 appraisals begin with a first digit of 2 or higher.
84	Appraisal Effective Date	Enter effective date of the property valuation on the subject property. For mortgages with an appraisal, provide an effective date of appraisal. For mortgages with an appraisal and Appraisal Update and/or Completion Report (FNM 1004D), provide an effective date of appraisal. None of the dates from the 1004D should be provided.	MM/DD/YYYY	No

Table 2: Multiple Construction Method Types in UAD:

UAD 2.6 only allows a single construction method type. With UAD 3.6 multiple values for construction type can be selected in UAD. When you have multiple construction method types associated with the dwelling in UAD, follow the guidance shown below:

Note: When one of the construction method type is “Manufactured”, always select “Manufactured” in Loan delivery.
