

Technology Manager Registration Portal: Rent Roll Registration

Rent Roll Registration allows multifamily sponsors, property managers and operating system vendors to request access to the Rent Roll Digitizer application for submission of rent roll data.

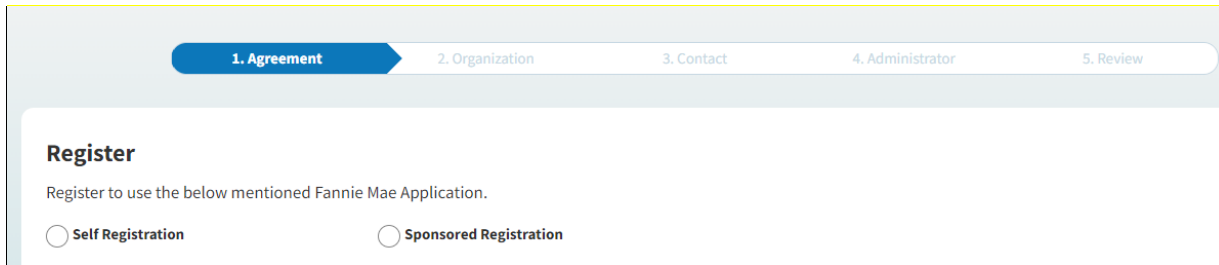

1. Select **Rent Roll** Registration on the Registration Portal page.

2. Choose registration type by selecting the appropriate button:

Self-Registration: To use the Rent Roll Digitizer™ application for your organization.

Sponsored Registration: To use the Rent Roll Digitizer application on behalf of another organization.

3. Select your **Organization Type** from one of three options using the drop-down. Once you select your **Organization Type**, you will see one of the following descriptions:

Borrower / Sponsor: Sponsor is the principal equity owner of a multifamily loan and/or is authorized to make decisions regarding the loan. In most cases is the Key Principle (KP) for the deal. The borrowing entity (not the Sponsor or KP) is typically structured as a single-asset LLC so that the income generated from the property is solely used to support the mortgage payment without being diverted to cover other obligations. A Sponsor may invest in many multifamily properties and have multiple mortgages with Fannie Mae.

Property Manager: The third-party professional or owner that manages the multifamily asset.

Property Management Software Vendor: The name of the specialized software company whose systems collect and store property operating systems.

4. Verify the **Application Name** and click the checkbox at bottom of page. (Note a reCAPTCHA challenge will appear, which the user is required to complete). Licensee must **click** the checkbox to acknowledge its agreement with the listed terms and conditions. Licensee must **enter** the name of the Authorized User or Delegate who is providing consent on behalf of the Licensee in the signature field. Select **Continue**.
