Multi-Year UAD Project

Seek industry input to help drive this work:

- Review all data in the current appraisal forms and the UAD 2.6 Specification
- Determine what information can be removed and what will remain
- Review legacy form descriptions to determine new discrete data needs
- Review addenda and description information to determine new discrete data elements
- Determine relative information to support the value conclusion, marketability, and/or eligibility

New UAD Delivery Specification

The URAR Data-Driven Output

- Reports only relevant data
- Dynamic based on input
- Easy-to-read appraisal analysis and conclusion
- Standardized, well-structured, readable
- Discrete data, pertinent commentary, and photos contained in the relevant sections, designed to reduce reliance on addenda
