

# **Integration Impact Memo**

### **UCD Cloud Migration Testing Deadline Extension and Additional Process Clarity**

Republished on Feb. 7, 2024

Jan. 18, 2024

#### **Deadline extension**

In response to industry feedback, we are **extending the testing deadline for the migration** of the Uniform Closing Dataset (UCD) environment from an on-premises application to the cloud from Jan. 19, 2024, **to Feb. 29, 2024**.

### **Endpoint Testing**

**By Feb. 29, 2024**, integrated partners (vendors or lenders who built system-to-system integrations) must complete testing to maintain active integration with UCD during and after the cloud migration. Please use the following endpoint URL to successfully test UCD XML file submissions to the UCD Collection Solution: <a href="https://api-flex-clve.fanniemae.com/service">https://api-flex-clve.fanniemae.com/service</a>.

Once testing is complete, we request that users immediately migrate to the production environment. All users should discontinue utilizing the previous URL (<a href="https://businessgateway.efanniemae.com/service">https://businessgateway.efanniemae.com/service</a>) upon transitioning to the new Cloud URL (<a href="https://api-flex.fanniemae.com/service">https://api-flex.fanniemae.com/service</a>). Please make sure to update your configurations to reflect the new URL. This change ensures seamless access to our services.

## **Credential management - Required System ID**

New application-to-application integrations accessing Fannie Mae technology now require a System ID. This change enhances credential management, offering improved control and protection against unauthorized access.

- Exceptions for current individual User IDs accessing UCD through an integrated solution will be granted until
  early 2025. A temporary bypass role AllowEndUserID\_loginto\_B2BGatewayAWS\_API is available for impacted
  UCD User IDs on Jan. 26.
- New System IDs must be provisioned with the UCD\_Submit role and AllowBasicAuth\_B2Bgateway\_FCP role in the Fannie Mae Single-Sign On (FMSSO) application.
- Refer to the <u>job aid</u> for guidance on creating a System ID to facilitate transactions and reach out to the Technology Support Center with questions, at 800-2FANNIE (800-232-6643).

Please refer to the User ID remediation <u>fact sheet</u> for guidance as needed.

#### Additional clarification

We received questions about some of the information provided in the Jan. 4, 2024, notice we sent regarding this UCD migration and want to provide additional information to support integrated partners who are impacted.

- Recent communication: The notice you received on Jan. 4 was a follow-up to <u>outreach conducted on Oct. 12</u> to integrated partners.
- Impacted users:
  - Integrated partners (vendors or lenders who built a system-to-system integration)

- This change does not impact vendors or lenders using the UCD web application.
- Submission to UCD through a vendor interface: If you submit to UCD through a vendor interface, please be aware that your vendor may reach out to you about this migration to ensure you are using a system ID and not a User ID through their interface.
- **Testing:** We recommend that integrated partners begin testing immediately and confirm testing completion with their Fannie Mae account representatives. Please refer to the testing package here.

**Timing for migrating to production:** After testing is completed, we encourage integrated partners to immediately migrate to production.

### **Questions?**

#### If you're seeing an issue with a Fannie Mae new endpoint/URL:

- Non-production (CLVE) issues:
  - Direct all Non-production (CLVE) issues to <u>UCD\_Integration@fanniemae.com</u> or your Fannie Mae representative with a copy of your request XML file, response file (or screen shots of the Fannie Mae generated error) and the System ID.
  - Integration Support will review/research the issue, pull in any other needed Fannie Mae resources and provide a resolution.
- Production issues:
  - Direct all production issues to 1-800-2FANNIE (800-232-6643). All production-related issues, including test submissions, should continue to follow the current production support model for proper monitoring and escalation.

#### For general inquiries:

Please contact your account representative for assistance or submit your questions to our UCD mailbox: <a href="mailto:UCD">UCD</a> Integration@fanniemae.com. For more information on UCD, visit the Fannie Mae <a href="mailto:UCD">UCD</a> and <a href="mailto:UCD">U
