## I. Introduction

In conjunction with the Uniform Closing Dataset (UCD) Specifications, the Government Sponsored Entities (GSEs) are providing five sample use cases that deal with standard types of loan transactions delivered to the GSEs. They are:

- Fixed Rate Loans
- Adjustable Rate (ARM) loans
- Purchase Transactions
- Refinance Transactions
- Construction Loans

In addition to these transactions, each use case will have some unique qualities that can assist in developing UCD files that will pass all Critical Edits published by the GSEs. The Use Cases will be provided in UCD V2.0 Sample CDs - each of which will have Closing Disclosure samples in addition to narratives describing the aspects of the transaction. In addition to the Use Cases, a Use Case Matrix in Excel format which will summarize the aspects of each Use Case.

Also provided by the GSEs are the UCD V2.0 Sample XML Files which are sample eXtensible Markup Language (XML) files that can be used as a guideline in delivering UCD XML files to the GSEs. The data in these files is in sync with each respective Use Case.

## II. Use Case Narrative

### Transaction Details and Parties Involved

Michael Jones and Mary Stone are refinancing their home at 456 Somewhere Ave, Anytown, NY 12345. They are taking out a 30-year adjustable rate loan from Ficus Bank. Joe Smith of Ficus is the loan officer and Sarah Arnold of Epsilon Title Company is the settlement agent. Ficus Bank is licensed by the Nationwide Multistate Licensing System (NMLS) with #996655 and Joe Smith is also licensed with the NMLS with #456789. Epsilon Title Company and Sarah Arnold are both licensed in the state of NY.

### Loan Details

The \$211,000 30-year adjustable rate loan starts at 4% and may first change interest rate after 5 years by up to 2% maximum. The loan can also change up to 2% every 3 years after the initial 5 years with an interest rate cap of 12%. The interest rate is based on a 30-Day SOFR rate (currently 3.8%) with a 2.0% margin. The initial Principal and Interest (P&I) Payment is \$1,007.35 with a maximum possible P&I payment of \$1,870. Michael & Mary are also required to pay \$161.77 monthly in Mortgage Insurance for the first 11 years of the loan.

- The Lender required the Borrowers to use their vendors to pay for an Escrow Waiver Fee, Flood Certification Fee and Tax Service Fee totaling \$390.

The Borrowers paid Epsilon Title company \$2,850 for Document Preparation, Closing Protection Letter and Insurance Binder Fees and \$800 for Lenders Coverage Premium. The Borrowers also paid \$200 to a pest control company they selected.

## Total Closing Costs including Lender Credits (if applicable)

The Borrower confirmed closing costs to be \$11,250.25 of which \$445 is paid before closing and a Lender credit of \$500 was included.

## Additional Transaction Funds

The Loan Amount of \$211,000 will be used to pay off an existing Mortgage Loan held by Rho Servicing of \$183,000, credit card debt of \$5,000 to Beta Card Inc., \$12,000 mechanic's lien to Bob's Home Improvement and a tax lien of \$10,000 to the state of NY.

## Additional Closing Information

The loan is assumable and has a late charge of 5% of the P&I payment with a 15-day grace period. The loan does not allow for partial payments. The loan has an APR of 4.418%. Should the loan go into foreclosure, state law does not protect the Borrowers from being liable for any remaining unpaid balance. The Borrowers will pay approximately \$736.77 for homeowner's insurance, property taxes and Homeowners Association Dues which they will not escrow for. To handle these items without escrow, Michael & May are required to pay a \$150 Escrow Waiver Fee.

## IV. Differences Using the Model Form for a Refinance from the Alternate Form

The main purpose of this Use Case is to provide a sample of a Refinance transaction using the Closing Disclosure Model Form. There are two main sections that vary from using the Closing Disclosure Alternate Form for a Refinance transaction.

- 1) The Cash To Close table required different values between the Model and Alternate Form.
- 2) On the Alternate Form, there is a Payments and Payoffs table. The values from that table will be placed in the Model Form section K. Due From Borrower At Closing. Section L. Paid Already by or on Behalf of Borrower at Closing is not on the Alternate Form, but must be completed on the Model Form to ensure that the difference between K & L matches the amount due from/to Borrower in the Cash To Close table.

## V. Calculations Disclaimer

Any calculations provided in this Use Case were derived by the GSEs based on the knowledge of the definition of terms and knowledge of the Consumer Financial Protection Bureau (CFPB) regulations. While the GSEs strive to provide accurate values in this example, they acknowledge that lenders and technology providers may come up with alternate values based off the same knowledge. If your calculations vary from the GSEs calculations, the GSEs recommend using the values derived at your organization.

### In the future,

Your property costs may change and, as a result, your escrow payment may change. You may be able to cancel your escrow account, but if you do, you must pay your property costs directly. If you fail to pay your property taxes, your state or local government may (1) impose fines and penalties or (2) place a tax lien on this property. If you fail to pay any of your property costs, your lender may (1) add the amounts to your loan balance, (2) add an escrow account to your loan, or (3) require you to pay for property insurance that the lender buys on your behalf, which likely would cost more and provide fewer benefits than what you could buy on your own.
